

Signal-Wise: we get the signal right

Sound Viewer

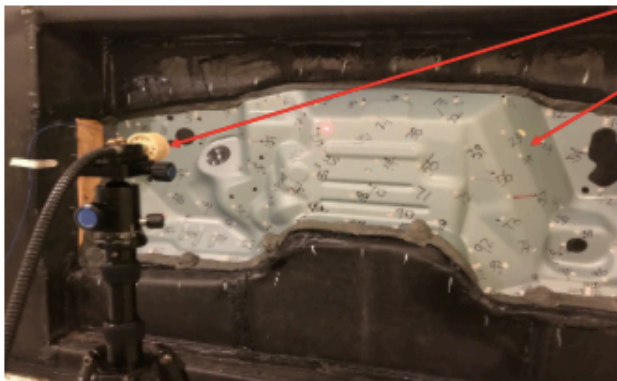

Sound Transmission Path (STP)

Sound Viewer enables one to identify STP through an arbitrarily shape structure.

The front dash panel of a full-size truck.

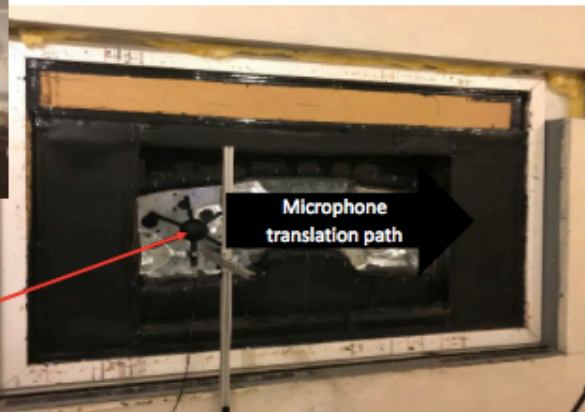

➤ Measure velocity

Laser vibrometer

Dash panel

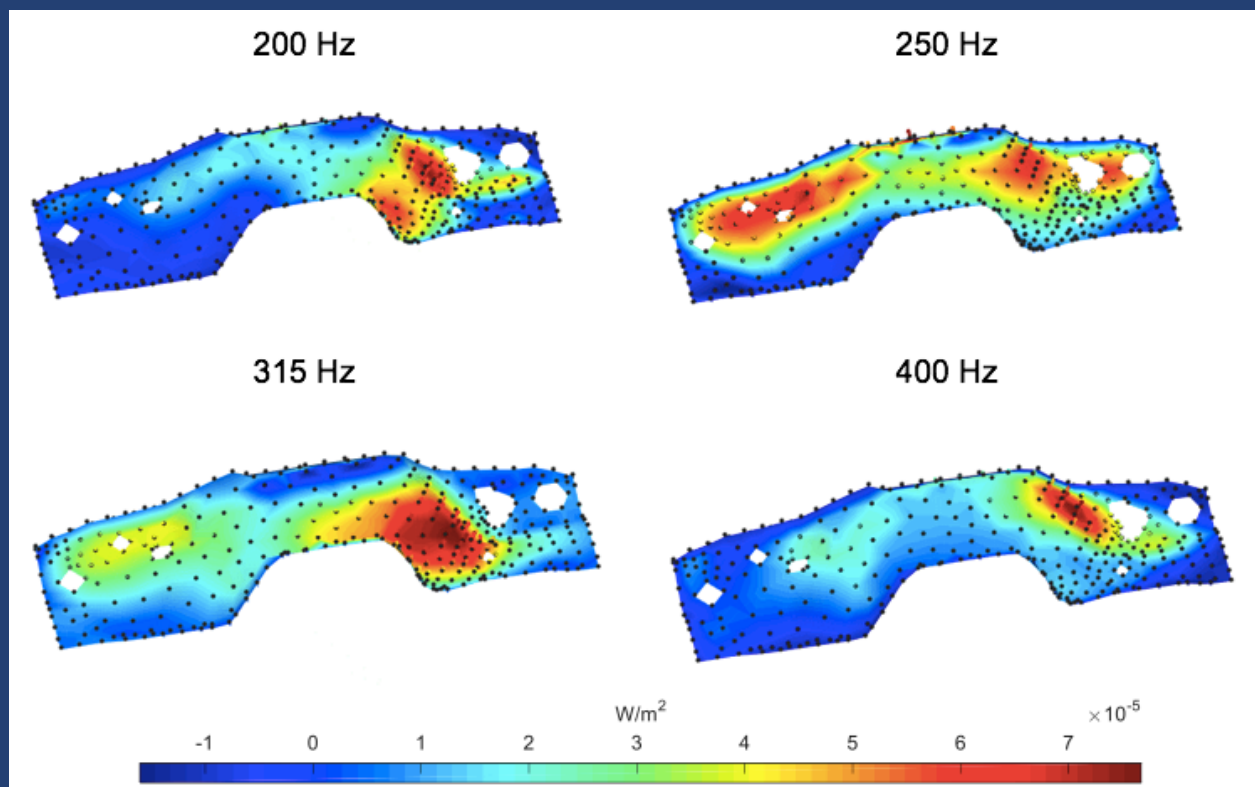

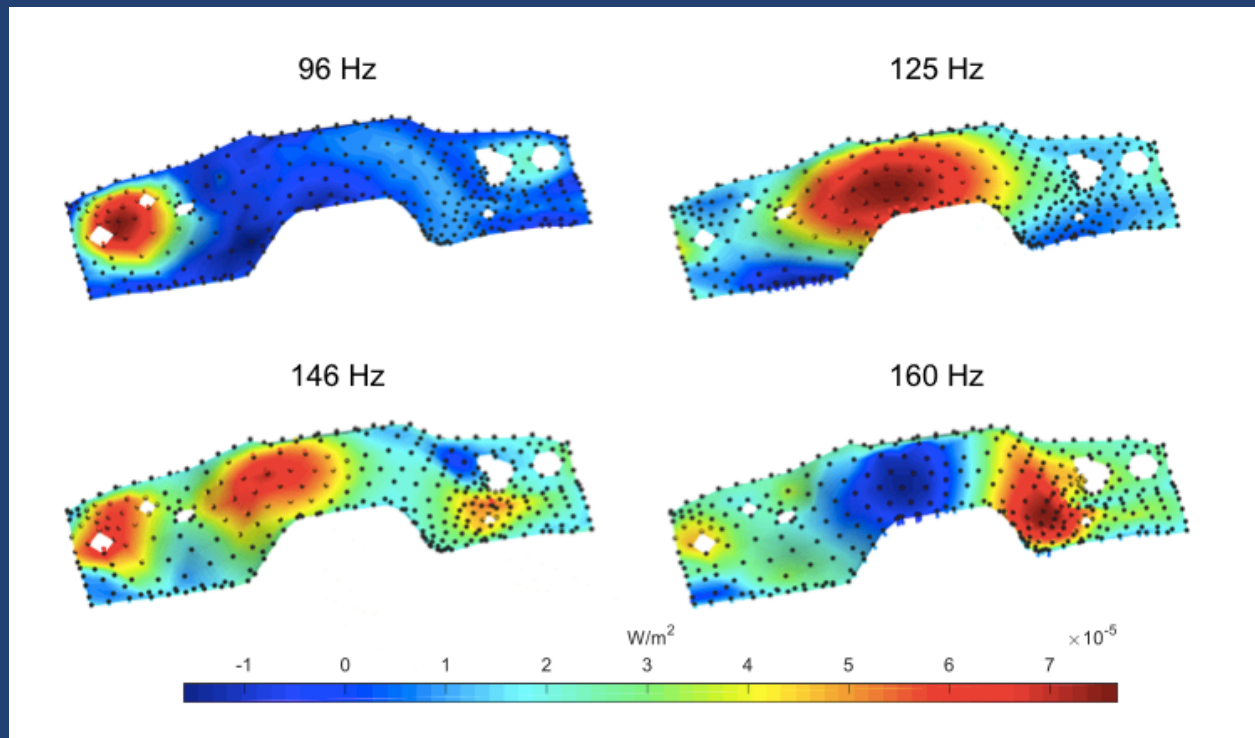

➤ Measure Pressure

Sound Viewer

Analyzing STP by using a laser vibrometer and Sound Viewer.

Signal-Wise: we get the signal right

Sound Viewer enables one to identify STL through an arbitrarily shape structure.
