# STUN GUNS

Stun guns use high voltage and low amperage to disable an attacker for several minutes. The stun gun does not rely on pain for results. The energy stored in the gun is dumped into the attacker's muscles causing them to do a great deal of work rapidly. This rapid work cycle instantly depletes the attacker's blood sugar by converting it to lactic acid. In short, he is unable to produce energy for his muscles, and his body is unable to function properly. The stun gun also interrupts the tiny neurological impulses that control and direct voluntary muscle movement. When the attacker's neurological and muscular system is overwhelmed and controlled by the stun gun, he loses his balance. Should the attacker be touching you, the current will not pass to your body!

**THE RECHARGEABLE 75 MILLION VOLT TRIGGER STUN GUN** with flashlight and wrist strap disable pin has a unique trigger design for easy operation and lifetime warranty. With a quick pull of the trigger you can have an attacker begging for mercy. It has a rubberized coating to ensure a nice, tight grip. The super bright 100 lumen flashlight will blind any attacker or it can be used as an everyday flashlight.

The stopping power on the TRIGGER stun gun is excellent with 4.8 milliamps of electrical current to bring down the enemy. No need to keep track of another charger since the recharger prongs are built in to each unit. The charge on the nickel-cadmium battery can last for up to 3 months depending on usage.

The Trigger stun gun comes with a disabling pin wrist strap that is an added safety feature. With the strap around your wrist, if the stun gun were to be knocked out of your hand or taken away by a thug, it will be rendered useless. It is available in 6 colors Black, Blue, Pink, Purple, Red and Zebra. **LIFETIME WARRANTY.** 4 5/8" x 1 3/4" x 7/8"

Introducing the world's first smart stun gun – the **SMART 24,000,000 VOLT KEYCHAIN STUN GUN** by Streetwise Security Products. This is the first stun gun to replace the traditional safety switch with a Touch Sensing Safety that “senses” when the unit is in your hand. It puts the stun gun in the “stun ready” position and automatically turns off the safety. Not having to fumble with the switches and buttons of a traditional stun gun saves you valuable time when you need to defend yourself. The design also features battery status indicator lights so you will never be without a full charge.

## FEATURES

- US Design Patent No. US D889,591 S
- Battery Status Indicator Lights
- Micro USB Charging Port: Charging the unit is simple. You can use the included USB charging cord in your computer's USB port or use your own wall block charger in an electrical outlet or car charger. It is recommended that you charge the unit for 3-4 hours prior to its first use.
- Touch Sensing Safety: Senses when the unit is in your hand, puts it in the "stun ready" position and automatically turns off the safety. You also use the sensor to turn on the LED flashlight.
- LED Flashlight: The stun feature can be used while the flashlight is on (other models require you to change from flashlight mode to stun mode). The battery Indicator Lights flashes while charging. Four solid lights indicate a full charge. The LED flashlight works with a touch sensor. Placing your finger over the probes will turn the flashlight on – removing it turns it off. The flashlight will turn off automatically after 20 minutes of constant use to prevent draining the battery.
- Rubberized Armor Coating
- Quick-Release Key Chain
- Comes in five fashionable colors: Black, Pink, Light Purple, Dark Purple and Teal.

# PEPPER SHOT PEPPER SPRAY

Pepper Shot Pepper Spray is made with 1.2% Major Capsaicinoids. The Major Capsaicinoids are the true heat measure and Pepper Shot 1.2% MC is more effective than of most other pepper sprays. In addition to causing an attacker pain, The Pepper Shot 8.5% oleoresin capsicum formula swells the mucous membranes, which makes breathing difficult, and swells the veins in the eyes, causing the eyes to close. It's made from 2,000,000 SHU's of raw pepper and these effects can last up to 45 minutes and cause no permanent damage. Has a UV identifying dye to help aid in the identification of an attacker.

**PEPPER SHOT 1.2% MC ½ OZ HALO HOLSTER AND QUICK RELEASE KEYCHAIN** This model has a locking actuator. ½ ounce with halo holster, locking actuator and quick key release keychain. The **PEACE KEYPER** is the affordable self defense tool that accommodates to anyone's daily life. Turn your everyday normal house key into non-lethal yet life saving self defense tool. Most Kwikset KW1 and Schlage SC1 styled keys (common style used for house keys) can fit into this device. Additionally, there's a quick release spring - with one twist, this allows you to use an alternative comfortable yet effective power grip position. Using the Peace KEYper as opposed to using your key on its own as a self defense tool gives you a better grip and reach as well as prevents you causing damage to your hand from the key's sharp edges when gripping it.

The **BARKING DOG ALARMS** are ideal for your home, office, store, business, or any place that would benefit from having a security dog. Except you don't have to feed, water, walk it or take it to the vet. It scares would-be intruders away by imitating the sound of a vicious barking dog (or an alarm) whenever anyone approaches. They are used to provide early warning against intrusion and to make people think twice before breaking in. According to the US Department of Justice, "a dog's presence is a close substitute for human occupancy and most burglars avoid houses with dogs".

They use non-harmful microwaves to "see" through walls and activate either an alarm, a chime, or the recording of a dog barking as soon as motion is detected. The chime can be used by store owners to let them know a customer has entered the store or at home as an automatic doorbell to alert you to visitors approaching. Will not work through metal walls, walls with metal studs, tinted glass, or extremely thick walls.

## FEATURES

- The microwave signal can "see" through walls and detect someone approaching from over 10 feet away
- Three modes: barking dog, chime, or alarm
- Powered by an AC adapter (included) or 8 AA batteries (not included) for temporary use during a power outage
- Wireless remote control to arm/disarm the unit, change the sound mode, or activate the panic alarm in case of an emergency
- Long-range remote control (50+ feet also work through walls).
- Low, Medium, and High Sensitivity settings.
- Three sound options, Chime, Barking Dog, and Alarm sounds will activate for 60 seconds at a time when motion is triggered.
- Eight volume levels with maximum volume of 120 dB
- Measures 6" x 5 3/4" x 3 3/4"
- Warranty: 1 year

The **DOOR GUARD** is an advanced door alarm features vibration detection to detects movement through metal and wooden doors once they're disturbed. The Door Guard can even detect through gloves. With its loud 98dB alarm, the sound guarantees enough noise to alert anyone around the entry of an intrusion.

Quick and easy installation! Just simply hang the alarm from handle of the doorknob, handle or window latch you wish to protect. Once hung, it will instantly detect any vibration. When the alarm is tripped, it will emit a 98dB alert for 20-30 seconds, then will reset in 3-5 seconds.

Take the alarm with you. The small compact size makes it perfect for travel. It also includes a built-in LED flashlight for added convenience.

- Touch and Vibration Sensors
- Built-in LED flashlight
- Detects movement through wood, metal and gloves
- Can hang from doorknobs, handles or windowlatches
- Measurements: 4" x 2" x 1 3/4"
- 1-year Warranty
- Requires 2 AAA batteries (not included)

The **GLASS BREAKAGE ALARM** is the perfect low cost security solution for homes and businesses. This alarm's powerful vibration sensor is triggered when glass is hit, knocked or broke by anyone.

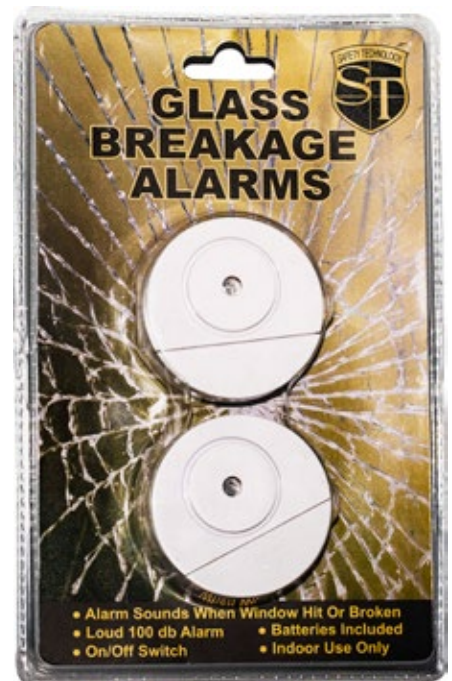

Once triggered, it sets off a loud 100dB siren alerting anyone nearby of a breakin as well as scaring off any intruders. The 100dB siren will sound off for approximately 30 seconds and then shut off and reset.

Easy installation: All you need to use to install is the included peel off adhesive and then simply mount onto the window and switch on the alarm mode. Two units included to ensure double the protection!

Each unit is powered by 3pc AG13/LR44 battery (included for both)

- 2 units included
- ON/OFF switch
- Fits any doors and windows
- Easily mounted by double-side adhesive tape
- Measures: 2 1/2" x 3/4"
