

COVID-19 UPDATE

Your safety is a top priority. Charleston Catering continues to monitor all correspondence from CDC and DHEC. We will continue to maintain strict guidelines for our sanitary conditions and take all precautions to insure the safety of our customers, employees and fellow citizens.

We are continuing our delivery or pick up options for those that desire their meals at home. All meals offered are delivered with a knock and text that your delivery has arrived. We will continue no contact for our deliveries.

HOW IT WORKS

Please review menus and when you find an offering of your interest follow the instructions located on each menu. We look forward to discussing our options with you.

All Meals Are Delivered to Your Door

We offer the following delivery choices:

Key/Concierge Service

You provide access to your home by a key or keypad. We can place your meals directly into your refrigerator!

Porch Service

Meals will be left on your porch or pre-designated area.

NOTE: If you are not home when your delivery is made, please leave a large cooler at your doorstep with cold ice packs to help ensure your meals stay cold until your arrival home.
