## WORKSHEET 43A

Divide the following. Add a decimal point and some zeros until there is no remainder or until the answer is repeating.
$3 1 1 \longdiv { 9 3 3 }$
$7 2 4 \longdiv { 7 4 5 7 2 }$
$1 0 5 \longdiv { 3 2 7 4 }$
$6 9 5 \longdiv { 7 9 2 3 }$

Divide the following. Show your remainder as a fractional remainder.

Laney saved up $\$ 12,448$ for college. Each class costs $\$ 389$. How many classes can Laney pay for with the money she has saved?
