Re: MJD Services

TO WHOM IT MAY CONCERN:

I am writing this letter to provide my highest recommendation for the thorough and very fine work and services of MJD Global Disaster Restoration, LLC and two of their Managers, Malou Joseph and Mr. Jean Delvar. MJD provided mold remediation and water mitigation services to many of my clients and friends here in the Panama City, Mexico Beach and Port St. Joe, Florida areas to deal with damages caused by the damage from Hurricane Michael. I have personally watched them work and observed the quality of their finished product. Not only did they do a great job but did the work with much pride and promptness - - continuing to work day to day from when they started until the job's completion with a Certificate being issued. In particular, Mr. Jean Delvar was always available for communication, consultation and supervision of the work. This company and their work ethic and their finished product were excellent!

Sincerely,

Law Offices J. Patrick Floyd, Chtd.
