Resistant Metal Bezel

Improve customer
experience with
accelerated
throughput

Improve
profitability
with fewer cash
collections

Improve efficiency
with automated,
closed-loop float
management

Significantly
reduce expensive
service calls &
machine downtime

Future proof your
cash handling
investment &
protect revenue

Technical Specification

NV4000-NXTP

(standard format bezel)

Coin Resistant Metal Bezel

Power

Requirements: 24V
Standby: 400mA
Running: 3A
Peak: 7A

Protocols

IF32 / SSP

MCBF

150,000

Metal Bezel

85 mm width

Interfaces

USB / RS232

Weight

12 kg

Bill Dimensions

Accepts (WxL): 60-85 x 115-165 mm
Recycles: Width 60-82 mm
Replenishes: Width: 60-79 mm

Certifications

UL, CE, ADA Compliant

Cashbox

1000 bills

Recycling Capacity

70 x 4 recycler modules

Replenishment Capacity

~ 400 bill replenishment cassette

Communication

Direct USB

Some national currencies differ in thickness and circulation practices. Depending on usage, this can impact cashbox and replenishment capacities.
