

# AUTOMATED COIN RECYCLER **XL**

## TWIN SMART COIN SYSTEM

Bulk coin feeder, twin hoppers and recycler

Designed with the  
Operator in mind.

### FEATURES

- Combined bulk coin validator, 2x mixed coin hoppers and recyclers
- **100%** greater Coin Capacity and **140%** greater Payout Speed compared to standard Smart Coin System version
- **Market leading** coin hopper capacity, payout speed, fully audited and efficient refills
- Validates, discriminates and stores **mixed coins**
- **Minimise distance** between coin entry and exit points
- **Easy maintenance**, free firmware updates and data logging
- **Closed loop system**
- **High security** - multi frequency sensing technology

Eliminates coin starvation & the need for multiple hoppers

Reduces operator collection costs

Improve operator cashflow with high speed mixed denomination payouts - keep machines running

Allows for space saving new machine design

Future proof: easy updates via USB, SD card, PC; online update via Host machine

Full audit traceability - no shrinkage

**Technical Specification**

**Twin Smart Coin System**

**Power**

**MASTER (SCS)**  
Requirements: 24V  
Standby: 200mA  
Running: 3A  
Peak: 6.5A

**SLAVE (Hopper)**  
Requirements: 24V  
Standby: 200mA  
Running: 3A  
Peak: 6.5A

**Protocols**

SSP (others on request)

**Interfaces**

USB with IF17 / Open collector

**Weight**

Empty: 6.5kg / Full: 30.8kg

**Coin Dimensions**

Diameter: 16.25 - 28.5 mm  
Thickness: 1.65 - 3.2 mm

**Coin Capacity**

2800 (€1), 2100 (£1), 3000 (Quarters)

**Mixed Coin Capacity**

€2 x 500 + €1 x 1400 + 50c x 600

**Payout Speed**

Up to 24 coins per second

**MCBF**

100,000

**Certifications**

UL, CE, ADA Compliant

Weight: 6.5kg (empty), 30.8kg (full)  
Units of measure: mm
