

CAPABILITIES STATEMENT

2026

COMPANY OVERVIEW

Sigma Solutions USA is a veteran-founded company that provides logistics and consulting services in the USA and around the world. We help companies import goods into the United States and export products from international clients to the U.S. market. We can manage transportation from the port to the final delivery, including last-mile services and customs clearance. We support government work, including USDA and Department of Defense (DoD) contracts, and we specialize in MRE and food procurement. We also provide food safety consulting, including HACCP programs, risk analysis, FSVP (Foreign Supplier Verification Program), FDA U.S. Agent services, as well as label verification to ensure imported food products to the U.S. meet FDA standards. Sigma Solutions helps clients operate safely, legally, and efficiently in both the U.S. and international markets.

CORE COMPETANCIES

Sigma Solutions USA focuses on clear planning, safe handling, and reliable services to meet and exceed customer needs.
