Principal
Southern California School Districts

Dear Principal,

As a recent multiple subject credential graduate from California State University of Fullerton, I am absolutely thrilled to enter the world of teaching. I have nearly two decades of professional experience ranging from the nonprofit world working with children to the corporate digital and technology field. There is nothing I want more than to teach our youth and make positive impacts on their lives.

Having been raised by a father who was an educator with the Philadelphia Unified School District for over twenty years, I know the heart, passion and dedication it takes to be an excellent educator. What it means to be a positive role model for our students and how those meaningful relationships shape the future of our students. Building relationships with the students, parents and community as a whole to work together to advance the learning of every student.

As a wife of an educator and mother of two young children, one of whom is in Kindergarten now. I am further reminded of how paramount the role of a teacher is for our children and community. There is no career that is more influential to impacting positive change to our world. Teaching young scholars to be their best by modeling kindness. Fostering meaningful and lasting relationships with students and their parents for students to maximize their goals is my goal and passion.

Sincerely,

Jung Park
