Dear Hiring Manager and Principal,

It is with great enthusiasm to apply for an Elementary Teacher position with your school district. I am currently in the process of clearing my California Multiple Subject Teaching Credential with NMUSD and OCDE with the first year of induction coming to an end. With over two decades of professional experience, ranging from the nonprofit and working with youth in the underserved communities and more recently in the corporate digital and technology field. I desire nothing more than to have the opportunity to teach the future leaders of tomorrow, today.

Currently, I am an Intervention/RTI teacher at Paulrino Elementary School here at NMUSD. I am responsible for small group instruction in SIPPS for first and second grade while I teach Fountas and Pinnell leveled literacy intervention (LLI) for fourth and fifth graders. Together with administrators and grade level teams, we collaborate and discuss curriculum design and implementation. As a team we create goals and the supports needed to enhance the learning opportunities in Tier 2 and Tier 3 intervention groups. It is my responsibility and goal as an educator to foster and ensure an equitable education for all my students in a safe learning environment.

Having been raised by a father who was also an educator with the Philadelphia Unified School District, I understand the enthusiasm, passion and dedication it takes to be an excellent educator. As a wife of an educator, mother of two young children, one of whom is currently a first grader and a professional for over two decades, I bring a unique perspective and experience to the classroom. I am only further reminded by my own children's experience how paramount the role of the teacher is for our children and community. My passion is to make that difference in each student's life by teaching, supporting, modeling and engaging them in their educational journey.

Sincerely,

Jung Park
