

The logo for THOTH London is set against a dark rectangular background. It features the word "THOTH" in a large, white, serif font, with "London" in a smaller, white, sans-serif font to its right. Below the company name, the tagline "Creating A Sustainable Future" is written in a small, white, sans-serif font. At the bottom of the dark rectangle, there is a silhouette of a landscape with several wind turbines.

Creating A Sustainable Future

Eco Cleaning Systems

Sustainability Statement

Leading the Way Towards a Cleaner, Greener Future.

In the ever-evolving landscape of sustainability, we embrace a simple yet profound truth.

Our Commitment to Sustainability

At Eco Cleaning Systems, we are unwavering in our dedication to three core pillars of sustainability, reflecting our mission to provide pristine cleanliness while upholding our green credentials:

1. Environmental Stewardship:

We are committed to combating pollution, addressing climate change and promoting eco-friendliness, safeguarding our planet for future generations.

2. Social Responsibility:

We prioritise the well-being of our workforce and engage in ecological awareness programs, driving positive change within our industry.

3. Economic Sustainability:

Recognising the interdependence of economics and ecology, we implement cost-saving measures, governance and regular updates to reduce our carbon footprint and contribute to a sustainable future.

Our Pledge

Eco Cleaning Systems is resolute in our commitment to climate change mitigation and positive environmental impact. We lead by example in our industry, partnering with experts within the sustainability sector like Thoth London to forge a path toward a Net Zero future. Through innovative sustainability solutions, we expedite progress in the right direction.

Our Responsibility

Our approach to partnerships is founded on creativity and purpose, collaborating with industry leaders, we share the belief that merging traditional wisdom with modern technology allows us to do more with less. Our sustainable cleaning practices not only promote stability but also make significant contributions to climate change mitigation.

"Our survival and well-being are intimately tied to the health of our natural environment, it's our guiding principle that shapes our commitment to sustainability."

CEO – Eco Cleaning Systems

Our Green Practices

At Eco Cleaning Systems, we actively enhance our environmental performance, implementing initiatives to reduce and when feasible, prevent pollution. Our comprehensive commitment includes:

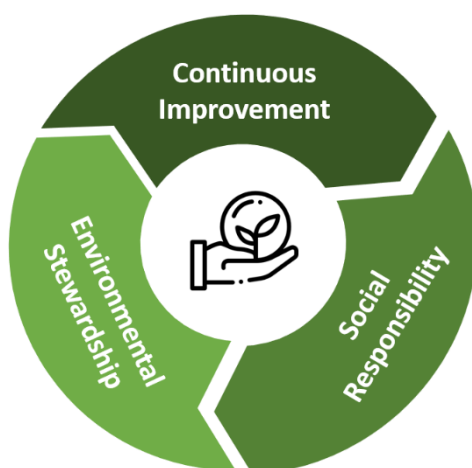

- Promoting sustainable travel options for staff and visitors.
- Advancing education and training at Eco Cleaning Systems.
- Sourcing eco-friendly products and services.
- Implementing comprehensive recycling practices.
- Encouraging equipment repair, reuse and recycling.
- Maximising energy efficiency and utilising renewable resources.
- Setting and achieving well-defined sustainable development objectives.
- Embracing best practices for sustainable work methods and training.
- Prioritising health, safety and well-being.
- Managing our facilities to minimise biodiversity impact.

Our Moral Imperative

At Eco Cleaning Systems, we recognise our moral obligation to be catalysts for positive environmental change. We wholeheartedly support the UK Government's climate transition goals and are committed to playing a pivotal role in fostering a sustainable and harmonious world for all.

Mission Statement

At Eco Cleaning Systems, we are more than just cleaning experts. We are dedicated champions of a cleaner, greener and more socially responsible world, sustainability defines our identity and guides our actions.

Environmental Stewardship:

We minimise our environmental impact by using eco-friendly cleaning products and energy-efficient equipment.

Social Responsibility:

We actively support local causes, charitable initiatives and prioritise our employees' well-being.

Continuous Improvement:

Our sustainability journey is ongoing. We constantly seek innovative ways to reduce waste and diminish our carbon footprint.

Our Green Culture

- Empowering Our Team: We equip every team member with the knowledge and resources to make environmentally and socially responsible choices.
- Collaboration and Innovation: We encourage creative thinking and innovation, welcoming fresh ideas and inventive solutions.
- Transparency: We maintain open and honest communication, inviting our employees to hold us accountable for our green goals.

Join Us in Our Mission

At Eco Cleaning Systems, we transcend being just a cleaning company.

We are stewards of the planet, advocates for social responsibility and drivers of change within our industry. Together, we forge a cleaner, greener and more socially responsible future, one impeccably clean space at a time.

Key Elements

- We avoid using products with palm oil to combat palm oil deforestation.
- We persist in our efforts to tackle the concern of microplastics and liquid polymers within our cleaning procedures
- Eco Cleaning Systems maintains an ongoing commitment to reviewing and updating our Sustainability Policy in alignment with evolving government regulations and policies
