Energetic: What We Do

Energetic integrates Five service bundles:

1. Market and business development
2. Project and long-term finance
3. Commercial real estate development
4. Energy production, monitoring, and efficiency
5. Energy off-takers such as datacenters, cold storage, indoor agriculture, manufacturing, commercial real estate

This presentation will focus on Energy and Building Monitoring (Smart Buildings).

Electricity and Natural Gas competitive pricing

Empowering Smarter Energy Management

Next-generation energy procurement tools prioritizing sustainability, affordability, and ease of use.

The #1 Platform Digitizing Energy and Sustainability Procurement. Zentility's mission is to transform an antiquated industry through intuitive digital experiences that streamline energy and sustainability procurement and propel businesses towards a sustainable future.

Zentility converts energy brokering from a fragmented and antiquated industry to being tech-focused, delivering operational scale and new revenue opportunities for our partners, and memorable digital experiences for their customers.

Features and Benefits

- Cutting-edge energy procurement platform that helps companies consolidate, manage, and procure energy for their properties at the lowest price out there.
- Transforms the outdated energy procurement process — think emails and spreadsheets — into a streamlined, AI-powered solution that can help your business secure electricity and natural gas more efficiently and cost-effectively.
- A powerful tool to simplify energy procurement at a fraction of the cost.
- Allows any business to procure their own energy, saving them a lot of money in high (often hidden) energy fees, and is fully managed so there's nothing for you to do other than save money on your utilities.

A comprehensive suite of integrated energy procurement solutions

We are pioneers in energy procurement technology

We started with one mission - create a better experience for businesses looking to procure energy in competitive markets. While that mission hasn't changed, it has expanded. Our technology platform allows our reputable and certified network of Partners to bring this experience to more businesses.

Zentility is making energy procurement transparent and cost-effective. We are digitizing a process that has been too wonky for way too long. We are excited to be at the forefront of an industry that is at an inflection point and eager to begin working with you to change the way Partners sell and businesses buy energy.

Save Money and Organize Your Energy Portfolio

- Zentility simplifies your business's energy procurement process. Our platform allows you to quickly compare energy rates from top suppliers, ensure compliance with regulatory requirements, and track your energy usage and costs in real-time.
- With a user-friendly interface and dedicated customer support, we make managing your energy procurement easy.
- Sign up today and simplify your energy procurement process.
