## Small Business Operations Audit

### Pricing and availability

The Small Business Operations Audit is available in a limited capacity for brands who align with our values.

Please email for current application and availability.

Small Business Audit including detailed report - \$1995 + GST + travel

Pricing is current as at May 2024 and is valid for 12 months. Travel is an additional cost not included in the audit price

If you have started your fashion business or purchased an existing fashion business and are experiencing growth or scalability pains, we are here to help.

We offer our Small Business Operations Audit for businesses just like you that need fresh experienced eyes to come in and audit the day to day running of your business and highlight the areas that need to be streamlined and recommend how to fix them.

We spend the day (6 hrs) in your business and walk through our checklist of operations with you and record detailed information of your business to compile our report.

Once the audit is completed we compile a detailed report highlighting the strengths, weaknesses and opportunities for growth and improvement within your business.

This includes, implementation of systems, staff, cost cutting and professional services available to ensure you have all the resources available to make the changes that you need to achieve the desired outcomes for your business.

All information is kept highly confidential and requires both parties to sign an NDA contract prior to commencement of the audit.

Reports and recommendations are kept securely on file for 12 months and will be destroyed and deleted after this time to ensure client confidentiality and privacy is upheld.
