# The Science Of HVF ENERGIZERS

*“Energetically we vibrate at a particular frequency. The lower the frequency, the denser your energy & the heavier your problems may exist.”*

*-The Aura Master*

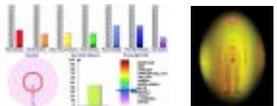

We all vibrate energetically at a particular vibrational frequency. The lower the frequency of your vibration, the denser your energy, and the heavier your problems seem. On the other hand, the higher the frequency, the lighter you feel in your physical, emotional, and mental bodies.

The High Vibrational Frequency(HVF) Energizers are formulated & curated by The Aura Master – Tested (scientist & energy practitioners) to be of extremely high potency level compared to natural pure essential oils. The extremely high potency instantly cleanses low & negative energies, and nourish & expand an individual’s aura at the same time.

When the high vibrational frequency particles of HVF Energizers penetrate into our olfactory system (bodily structures that serve the sense of smell), they affect the limbic system, (linked to the emotions, the heart rate, blood pressure, breathing, memory, stress, and hormone balance) to uplift our energetic and immune systems.

Since 2008, HVF Energizers are must-haves for thousands of busy executives, career individuals, children, home makers and energy practitioners to achieve success through instant rejuvenation of an individual’s energetic system (aura & chakras).
