*Based on Traditional Chinese Medicine(TCM) meridian points. No drugs, no chemicals, no needles, no PAIN!

Calibrates & Harmonises Your Chakra System

Meditation, crystals, yoga, massage, aromatherapy are popular ways to help heal and balance our chakras. Quantum Easy has curated 7 stick-on apps specially for the purpose of helping each chakra calibrate at its best frequency. So imagine a 'quantum healer' transmitting energy to you, just that while a healer would do so usually through their hands; QuantumEasy's Chakra Charger helps to activate the transmission of frequencies once you stick it on.

Everyone can benefit from having healthy and charged chakras. When any of the chakras are not spinning at the correct frequency, we may begin to feel emotionally imbalanced, fatigue and discomfort physically. The concept of chakras originated from Hindu culture which dates more than 5,000 years. According to many Eastern philosophies and healing practices, the chakras are spinning wheels of energy that run from the base of the spine up to the top of the head in our body. Each of the seven chakras represents different emotions and functions.

How to Use:

Stick on different chakra SOA stickers onto the position of the chakras. (see Diagram)

A pack includes: 42 pieces of SOA stickers • Recommended usage of each SOA is 8-12 hours, but its effects last as long as it's activated ***Important things to note:** Do not attempt to reuse or peel off the SOA. The effects of the SOA cease once it's peeled off.

"Helped balance my chakras and I was shocked to see the difference in my Aura Report after 1 week of using the SOA!"
– Alicia Huang

ANTI BODY DAMPNESS

Stick-On App (SOA)

Relieve • Refresh • Restorative

Helps removes 'dampness' from the body to prevent lethargy, body aches and stagnation of 'qi'

*Based on Traditional Chinese Medicine(TCM) meridian points. No drugs, no chemicals, no needles, no PAIN!

Your Moxibustion In A Sticker To Optimise "Qi" Circulation

In Tradition Chinese medicine, Dampness (shi) is often associated with late summer which is a time of high humidity and/or wet, rainy weather which may lead to problems of damp living conditions. 'Dampness' can also originate inside the body leading to water retention. The 'Yin' nature of Dampness obstructs the normal flow of 'qi' and can be a challenge to clear.

Symptoms associated with Dampness are:

Poor appetite, constipation, water retention, pain and heaviness in joints, and feelings of oppression in the chest or upper abdomen, sluggishness and stagnation.

Moxibustion is a method of heating specific acupuncture points on the body through the burning of herbs- usually the mugwort. Mugwort is a commonly used herb in folk medicine, it is believed that the Roman travellers would put it in their shoes to soothe aching feet and relieve exhaustion. Moxibustion uses heat to help increase the flow of 'qi' and blood, while the mugwort can help regulate the qi and expel cold. It is a very useful technique to warm the meridians, expel cold and helps with circulation – making it especially helpful for conditions caused by Dampness.

How to Use:

Stick 1 SOA each on the San Yin Jiao acupuncture point on the inside of both legs (4 fingers above your ankle).

A pack includes: 28 pieces of SOA stickers • Recommended usage of each SOA is 8-12hours, but its effects last as long as it's activated ***Important things to note:** Do not attempt to reuse or peel off the SOA. The effects of the SOA cease once it's peeled off.

"I'm told that I have a lot of dampness in my body... and that caused frequent aches, and even pain in my joints. They got much better after using Anti-Body Dampness SOA!"

CHILD FOCUS Stick-On App (SOA)

Concentrate • Clarity • Calm

Excellent for students studying for exams, wanting to stay focused and maintaining mental alertness

*Based on Traditional Chinese Medicine(TCM) meridian points. No drugs, no chemicals, no needles, no PAIN!

The Ultimate 'Brain-Fuel' For Enhanced Focus & Determination

The Child Focus SOA is the ultimate 'Brain-Fuel', designed to provide the user with enhanced alertness & determination. Using the concept of Quantum TCM acupressure calibration, it also aids with energy flow, removing stagnant energies to combat fatigue & great for helping with the user's concentration. Having strong mental energies and less stress can help reduce sluggishness and distractions, leading to a calm and focused learning attitude.

An adult's concentration span is usually only twenty minutes long. For a child, his/her attention is easily distracted through other activities like games, TV programs, toys or even their mobile phones; it is not surprising why settling into full concentration and focus can sometimes be a struggle. When the child is able to feel healthy and positive, the process of learning and taking in new information becomes more enjoyable and less tedious. Having strong mental energies and less stress can help reduce sluggishness and distractions, leading to a calm and focused learning attitude.
