CHILDFOCUS Stick-On App (SOA)

Is Your Child Having **Trouble Focusing** For Studies And Examinations?

Your 'Brain-Fuel' For Enhanced Focus & Determination

- ✓ Enhanced Alertness & Determination
- ✓ Combat Fatigue & Stress
- ✓ Reduce Distractions & Lethargy

Our breakthrough technology of holographic Stick-On Apps(SOAs) adopts the science of quantum waves technology (QWT) & the methodology of holographic information programming (HIP) to calibrate & balance the Intrinsic Data Information (IDI) of the affected area (of dis-ease), thereby facilitating the body to correct & heal by itself.

Using the concept of Quantum TCM acupuncture calibration, it also aids with energy flow, removing stagnant energies to combat fatigue & great for helping with the user's concentration.

Excellent for students studying for exams, wanting to stay focused and maintaining mental alertness.

DON'T TAKE OUR WORD FOR IT

"My daughter doesn't have as much anxiety when in school after using Child Focus SOA, especially during school presentations."

– Mr Tan.
Used Child Focus For His Daughter

"At first I was skeptical about Child Focus SOA, but my daughter was able to focus better for her PSLE preparations!"

– Jennifer C.
