XPECTRO SOLUTIONS

**Innovating Beyond
Expectations!**

About Company

Xpectro Solutions is a **Gurugram**-based startup specializing in **AI-driven, human centric fraud detection**. Their flagship product, **ePayCop**, provides real-time protection against digital payment frauds like smishing and vishing. Complementing this, **ePhishHook** (integrated within the ePayCop ecosystem) acts as a proactive shield, instantly alerting users to malicious links and phishing attempts.

Innovation is our top priority, and we want to ensure our services can help your business reach new heights.

Smishing Detection

To safeguard against phishing and identity theft risks.

Vishing Detection

To protect against manipulative & financial scam calls.

Quishing Detection

To protect users from malicious QR code phishing threats

Next-Gen Phishing Detection

To secure people online through adaptive multimodal phishing detection.

Fake Voice Detection

To safeguard individuals against frauds involving AI-based voice cloning.
