

Estate Signing Professional Self-Assessment

A Reflective Growth and Professional Development Worksheet

Purpose	Scoring Scale
Evaluate operational preparedness, environmental awareness, communication discipline, and ceremony professionalism. The goal is steady growth, not perfection.	1 = Needs Significant Improvement 2 = Inconsistent 3 = Developing 4 = Strong 5 = Consistently Strong

Assessment principle: Rate based on evidence from actual behavior, not intention. A useful self-assessment should reveal what to practice next.

Author tip: Professional growth inside estate-signing environments rarely happens through speed. It develops through observation, reflection, steadiness, preparation, and consistent professional restraint over time.

These aren't transactions. These are legacies.
