Elevate discount qualification

To receive the 25% tuition discount, a candidate must have 60 consecutive days of active, paid Elevate CESP Skool Membership before purchasing the Intensive and be an active paid member when purchasing. Continuous paid membership from the previous CESP community structure counts toward the requirement.

Course access is separate from membership

Explore members may purchase the full Intensive without upgrading. Explore and qualifying Elevate candidates receive the same Intensive classroom, instruction, materials, and assessments. Purchasing the Intensive does not automatically grant Elevate membership. Once purchased, Intensive access continues even if the candidate later cancels Elevate; unrelated Elevate-only benefits end when paid membership ends.

Payment and certification

A missed installment receives a seven-calendar-day grace period; participation may be suspended if payment remains overdue afterward. All tuition must be paid and all certification requirements completed before certification is issued. Enrollment alone does not confer certification.
