

# Covid Crew'Sing Vaccination Rap

Get the vaccine, it makes all the difference,  
Adding the booster is the new prescription,  
Protecting one another is a step above,  
Follow the guideline, shows some love,

We are here to lead the way,  
Washing your hands can save the day,  
Today is our chance to start anew,  
Listen to science, and the nurses too!

Mask, social distance vaccination, sanitation  
Coming together as one mighty nation,

Being safe, and changing the scene,  
Let's work together as one strong team!

**We Matter! I Matter! You Matter! We Matter!**
