

## Elevator pitch

Power Hyb - a unique investment product aimed at small and medium-sized enterprises and farms. As a hybrid power plant for electricity from renewable sources, we help our customers to achieve a quick return on investment and full independence, energy autonomy. The Power Hyb mid product belongs to the 'off-grid' type, where you can be independent of the lack of power supply from the grid. Power Hyb is a wind power plant, a solar power plant, a pressurised power plant together with an appropriately dimensioned energy storage system. The high efficiency based on hybrid technology answers the question of why we should have this kit at any price. See for yourself: Ecology, energy independence, fast economic amortisation, easily accessible financing, government subsidies, etc. We offer different types of kits to meet your needs. If you have any questions, please contact our partners worldwide (access via [www.trinity-crown.com](http://www.trinity-crown.com) ).

Kind regards,  
CIO / SMK
