

Public Health
Prevent. Promote. Protect.

**Christian County
Health Department**

Dr. Anderson, our Administrator, met with Senator Doris Turner and State Senator Steve McClure to discuss the needs of increasing funding for our local health department in Christian County as well as other local health departments around the state of Illinois. SIPHC, NIPHC, IAPHA and Illinois Public Health Association worked together to make this day a success where we were able to meet with over 20 legislators to discuss and answer questions about our health departments and our needs.
