ABOUT HUAIHAI

HUAIHAI SODIUM ELECTRICITY CONNECTING THE WORLD

Exporting to 120 countries and regions

Huaihai Holding Group, **established in 1976**, has sold over **28.9 million electric vehicles** with a **Chinese record** for the highest number of sales, it has developed into a large-scale, high-tech, eco-friendly, and internationalized private enterprise through years of innovation and growth that has customers in over 120 countries. In 2018 they served more than **70% of the world's population** and ranked first in the industry. **BYD** has now signed a joint venture with Huaihai for their industry-leading technology. Huaihai ranks among the top 500 manufacturing enterprises in China, the top 500 private enterprises in China, and the top 100 Jiangsu merchants.

ABOUT KAPLA

Kapla is a trailblazer in sustainable electric vehicle manufacturing, rooted in Sri Lanka since 2003. Our journey is a testament to innovation, quality, and eco-friendliness. With an impressive 80% domestic value addition, we're dedicated to bolstering Sri Lanka's economy. Our 100% emissions-free range includes five distinct vehicle models, including golf carts, sightseeing buses, three-wheeled golf carts, CheChe Mini SUV, and a forthcoming street-legal electric car that is perfect to boost ESG ratings. Kapla thrives at the intersection of eco-friendly artisanal craftsmanship and advanced technology, setting new standards in EVs. Our vision propels us towards global leadership in electric vehicles, contributing to a greener world.

THE KAPLA HUAIHAI ADVANTAGE

- **SAVE R.S 192,240 PER YEAR**

Since gasoline powered TVS Ntorq, Honda Dio or Yamaha Ray is so inefficient; after deducting extremely expensive petrol costs + servicing charges and wear & tear, the ZL9 will save R.s 192, 240 so you can spend that savings on your family or business

- **NO MORE BREAKING PARTS**

NO Air Filters
NO Oil Filters
NO chains
NO sprockets
NO Spark Plugs
NO Brushes
NO Engine oil changes
NO Exhaust Pipes
NO Clutch
NO Carburetor

*Save R.s 48,000 annually

- **LIKE CHARGING YOUR PHONE**

That simple, just like charging your phone every night, plug your electric scooter into a 13A power outlet with no large EV charger adapters. Just a regular cable with the typical plug so you can charge anywhere.

- **1- YEAR HEADACHE-FREE WARRANTY**

Guaranteed by both Kapla & Huaihai if there are any factory defects on electrical items we will give a FREE replacement unit immediately.

- **R.s 76 CENTS PER KM**

Like really, it costs between R.s 0.5 to R.s 0.86 per km. Which is at least 90% less fuel costs than the TVS Ntorq, Honda Dio or Yamaha Ray

- **NO MORE SERVICING & NO MORE BREAK DOWNS**

Unlike gasoline-powered extremely inefficient scooters that require a minimum of R.s 32,000 of servicing per annum, our electric scooters have a yearly servicing cost of R.s 0.

- **3-5 YEARS BATTERY**

Since we use the world's best battery brand Chilwee, we have tested to prove that your battery will have over 1000 cycles which can be used for 3-5 years at 60% DOD
