

Our fascinating obsession

The Winery

CAVAS La Capilla focuses on the production of small quantities of high quality wines following the Boutique Winery concept and taking care of every detail of the wine making process.

Our Philosophy consists in the close approach we give to every step of our unique wines creation, from the most environment friendly interaction with our vines until the delicate bottling of our products.

High quality standards and state of the art technology are combined in a modern building overlooking the impressive view of the Andes Mountains.

The Vineyards

Cavas La Capilla has two vineyards in Mendoza Province, Argentina.

LUJAN DE CUYO VINEYARD

Known as the Argentina Malbec Cradle, LUJAN DE CUYO counts with old vineyards producing grapes with high concentration and superior quality. Our Vineyard production accounts for 80% malbec and 20% Cabernet Sauvignon.

UCO VALLEY VINEYARD

Located in Tupungato county, home of top wine projects, our vineyard is over 1.000 meters about sea level. Unique climate conditions combined with poor soil help the production of high quality Malbec, Syrah, Cabernet Sauvignon and Merlot grapes. The area is also famous for the quality of Chardonnay and Sauvignon Blanc.
