## Spring 2014

### Mike & Key Hamfest, Puyallup March 8, 2014 Recap

By Scott, KA7FVV

The Mike & Key was attended by Roger, Glen, myself and John, AAT. John drove up from sunny California to help us man the table. We had many visitors by our table and had a couple of renewals. We sold quite a few raffle tickets for our hamfest as well.

The hamfest was well attended as always. Getting to tables before noon was an effort at best. I think we all hauled home some new treasures that day and wish we had the money for the expensive radios demoed at the Icom booth. Teaser pictures of the new IC-5100 on Ray Novak's iPad was the best he could do for us.

# *From the Desk of our President*

## Members

I would like to thank Glen, Scott and John (who traveled from California to assist) for their assistance at the Mike and Key Show in Puyallup. The show was well attended and a large number of hams stopped to thank KBARA for their service to Western Washington. The table looked very nice with the KBARA banners and candy attracted Hams from Spokane, Eastern Washington, British Columbia and California. Several D-Star users stopped to thank KBARA for having a DStar system and for using the Washington State Reflector. Raffle tickets for the Spokane Hamfest and KBARA memberships were sold. The table is a good way to get the word out about KBARA.

The Yakima Hamfest held in Selah is coming up April 12<sup>th</sup>. KBARA will have a table at that event.

Spokane Hamfest is moving along, Thanks Betsy for you hard work for that event and KBARA.

Spring is a time of renewal I would like to propose that the members of KBARA keep in mind the Amateur Code written in 1928 by Paul M. Segal W9EEA when on the air.

## THE RADIO AMATUER IS:

**CONSIDERATE**...never knowingly operates in such a way as to lessen the pleasure of others.

**LOYAL**...offers loyalty, encouragement and support to other amateurs, local clubs, and the American Radio Relay League, through which Amateur Radio in the United States is represented nationally and internationally.

**PROGRESSIVE**...with knowledge abreast of science, a well-built and efficient station and operation above reproach.

**FRIENDLY**...slow and patient operating when requested; friendly advice and counsel to the beginner; kindly assistance, cooperation and consideration for the interests of others. These are the hallmarks of the amateur spirit.

**BALANCED**...radio is an avocation, never interfering with duties owed to the family, job, school or community.

**PATRIOTIC**...station and skill always ready for service to country and community.

Professionalism when on the air between hams and owners should be the goal of all. Again thanks for great members, officers, appointed officials and the net hosts that promote and use the KBARA System.

73

Roger Krug KF7JJC  
President KBARA

## Summits On The Air or SOTA

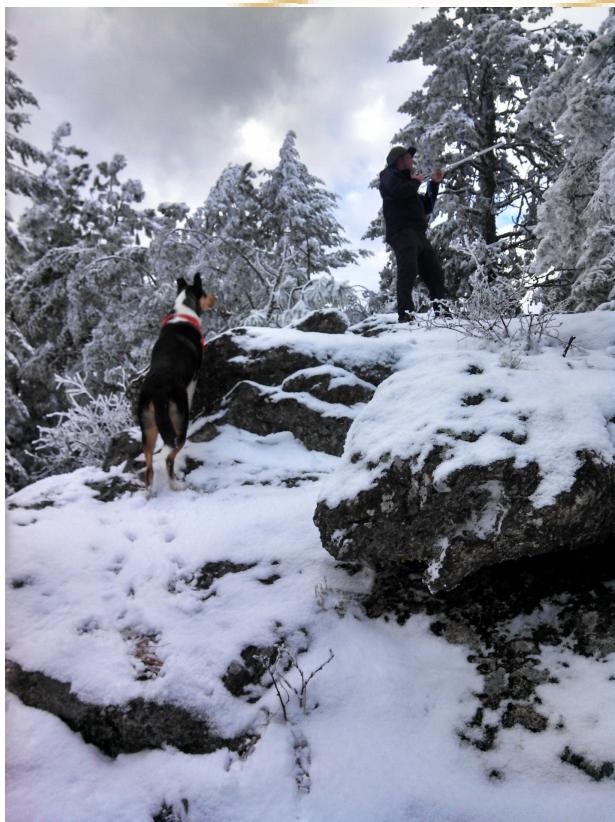

Summits On The Air, or SOTA, is a type of ham radio contest that gives points for talking to and from ham operators on mountain tops. SOTA "Activators" get points by making contacts from the summit. SOTA "Chasers" get points for talking to the activators from a base station. A summit is "activated" by reaching it through some form of human transit, and then making a contact. Points are given when the activator gets four unique contacts. By SOTA rules, activators need to make their final ascent to the summit by human power such as hiking, snowshoes, skiing, or cycling. However, SOTA is NOT just for mountaineers. Many of the summits in our area are easily accessible by a short walk. Hams that want to take part in the contest from the comfort of their own ham shack can be chasers. Activators LOVE their chaser! Activations have to be done on simplex (not using repeaters). Most SOTA activators use QRP HF, either CW or phone. However, summits can be activated on any band and with any mode.

For me, SOTA has let me combine several of my hobbies into one activity. I've accessed summits by bike, back country skis, and on foot. I don't have a portable HF radio. Therefore all of my activations have been with my HT radio on 2 meter FM simplex. This mode works pretty well for activations around metropolitan areas such as Spokane. I've talked to chasers up to 100 miles away using my handheld. Check out some of my activations below...

These two photos are from an activation we did on top of Mount Spokane. We accessed the summit by mountain bike.

The photos below are from an activation I did on "Krell Hill", AKA Tower Mountain, just southeast of Spokane.

And the activation below took place close to KBARA's Lookout Pass repeater site, on the Idaho-Montana boarder. With several feet of snow on the summit, we reached it using back country skis:

More information can be found on the SOTA websites listed here:

Main SOTA site: "<http://www.sota.org.uk/>"

Pacific Northwest Chapter: "<http://www.pnwsota.org/>"

SOTA mapping project ( a cool way to see the summits in your area) : "<http://sotamaps.wsstvc.org/>"

Feel free to contact me for more information or questions. Maybe we can meet up for an activation!

Mike

## **Summer Campout and Annual Meeting July 26th and 27th**

Location of the campout this year will be Deer Lake, 36 miles northwest of Spokane.  
Camping will be at:

### **Deer Lake Resort**

3906 West Canyon Springs Way

Deer Lake, WA 99148

509-233-2081

[www.deerlakeresort.com](http://www.deerlakeresort.com)

RV sites are \$38 per day.

# **CAMP OUT!**

The Annual Meeting will be at Betsy and Jim's lake house within walking distance of the resort on Saturday, July 26th at 1 pm. A potluck will follow the meeting. Listen for more details on our 7 AM and Wednesday night nets.

*Important  
DATE!*

**A list of silent keys since our last newsletter. They will all be missed.**

**Neil Gallup, N7LVO**

**Don Vogel, WA7BAA**

**Bob Phillips, W7LMA**

**Dallas Lund, W7DAL**

# Hamfests

*"The Northwest's Largest Ham Convention"*

**SEA  PAC**®

The SEA-PAC logo features the word "SEA" in a large, bold, black, sans-serif font. To the right of "SEA" is a circular graphic containing three white seagulls in flight over a stylized wave. To the right of the circle is the word "PAC" in a similar bold, black, sans-serif font. A registered trademark symbol (®) is located to the right of "PAC".

Host of the ARRL Northwestern Division Celebration

**June 6, 7 and 8, 2014**

**Seaside Convention Center**

**415 First Avenue, Seaside, Oregon**

The Oregon Tualatin Valley Amateur Radio Community Services, Inc. and  
The Oregon Tualatin Valley Amateur Radio Club, Inc. sponsoring  
organization of SEA-PAC wishes to thank the Clark County Amateur Radio Club,  
Sunset Empire Amateur Radio Club, STARS and RAGS for their support.

**Talk-in: 145.450(-) Tone 118.8**  
**[www.seapac.org](http://www.seapac.org)**

**Convention sponsors reserve the right to alter the convention schedule and programs.**  
All registrants, including convention sponsors, are eligible for awards. Good luck to all!

**Seaside Convention Center**  
is a No Smoking Facility.  
ORS 433.839 and ORS 433.875  
No Pets Allowed in the Convention Center.

**For all Pacific Northwest Hamfests be sure and  
check out the website of N7CFO. He has all the  
area hamfests including the ones highlighted  
here.**

# 2014 Membership Dues

Name: \_\_\_\_\_

Call Sign: \_\_\_\_\_

Address: \_\_\_\_\_

City/State: \_\_\_\_\_ Zip: \_\_\_\_\_

Telephone: \_\_\_\_\_ Amount Paid: \_\_\_\_\_

E-Mail: \_\_\_\_\_ ARRL Member #: \_\_\_\_\_

Would you rather receive the newsletter via computer, instead of receiving it in the mail?  YES  NO

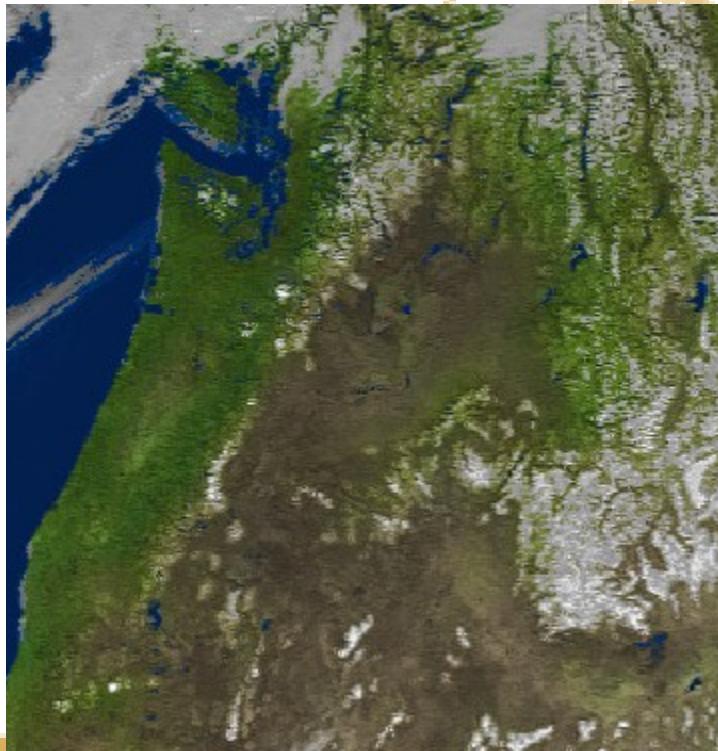

Dues are a minimum of \$15.00 per year for individuals and \$20.00 for a family (all must be living at the same address). Dues are due January of each year. If they are paid between September 1 - December 31, they will be applied through the entire following year. And any additional amount going toward the Repeater Fund will be graciously accepted. To support **KBARA**, please send your contributions to:

**KBARA, PO Box 30801, Spokane WA 99223-3013**

Please visit our **KBARA** website for more information: <http://www.kbara.org>

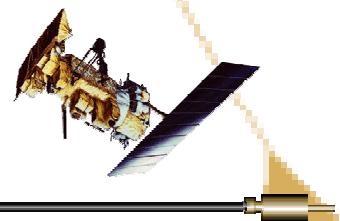

via our web page. No check or stamp needed.

All of you have seen the weather satellite posts the John, AAT and I do on Facebook. This one was particularly nice on a clear day in March. NOAA 19 overhead pass for Spokane. Here I have removed the state border overlay. The detail is pretty amazing. If you look close you can see the Columbia River and that is snow in the Cascades and Rocky Mountains. Multiple lakes can be seen, even Coeur d'Alene.

Scott, KA7FVV

Please bring two pieces of identification, one having a photo, radio license, if any, plus a photocopy, & any outstanding Certificates of Completion, plus a photocopy, & Social Security number or FCC Registration Number (FRN), and cash or check made out to the "ARRL" (\$15) or "W5YI" (\$14). If you pass a lower class license, you may sit for the next highest class on the same exam fee. You may retake any failed exam for an additional fee at the same testing session

# New FM Amateur Radio Satellite launched from ISS

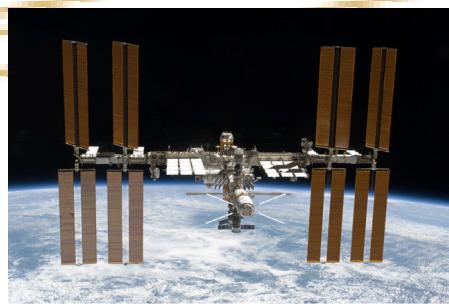

by Scott, KA7FVV

## LituaniaSAT-1

- FM Transponder:  
Uplink 145.950 MHz Downlink 435.180 MHz
- AX25 Uplink 145.850 MHz AX25 Downlink 437.550 MHz
- CW Beacon 437.275 MHz

Facebook:  
<https://www.facebook.com/Lituanicasat1>

<http://ka7fvv.home.comcast.net>

LituaniaSAT-1 was deployed from the ISS on February 28th. The CW beacon was heard from my station but nothing on the transponder. There are reports of brown outs during eclipse. They are contributing this to problems with the solar panels. The CW beacon was being turned off to facilitate quicker charging of the batteries.

## Milestone for smallest satellites ever launched. 3.5 x 3.5 cm. 200 of them!

KickSat CubeSat was deployed with the latest SpaceX Dragon resupply mission to the ISS. Satellite was deployed from the Falcon 9 rocket body after Dragon separation. This is scheduled to launch on April 14th at 1658 EDT. The cubesat will start transmitting telemetry on 437.505 MHz with 1 watt of power shortly after deployment. The sprite satellites that are 3.5 cm square and just a flat circuit board will be deployed 16 days after launch. They will transmit on 437.240 MHz with 10 mw broadband signal.

**KBARA Membership / Support Information:** The KBARA repeater system consists of several privately owned linked Amateur Radio repeaters. It covers an area from northeastern Washington to northeastern Oregon, and from western Montana to central Washington. The KBARA system is also part of the Evergreen Intertie, an interconnected group of repeaters located in western Washington and Oregon. The primary purpose of the KBARA repeaters is to provide a means for emergency communications within the above areas, and secondarily for routine radio traffic. It makes possible a single system of mobile communications coverage, extending the limited range provided by any single repeater operation. The KBARA FM repeaters operate in the VHF bands and are linked by UHF radios. The repeaters' frequencies, call signs, locations and owners are as follows:

All licensed Amateur Radio operators are welcome to use this open repeater system. Your support would also be greatly appreciated.

Please visit these sites for more information: <http://www.kbara.org> and visit <http://groups.yahoo.com/group/evergreenintertie>

Follow us on Facebook
