

Silent Protest

Against Media Censorship

- The Green Party earned 233K votes in the last Ontario election, they've won seats in 3 provinces, they have a seat in the House of Commons, and they hold the balance of power in BC.
- Yet Ontario's broadcasters are hosting a rigged Leaders Debate, inviting only the three largest parties.
- Of Ontario's twenty official political parties, *four* of them receive annual funding from Election Ontario, based on their public support at the ballot box. That includes the Green Party.
- If voters are funding four parties, they deserve to hear from all four leaders. The TV networks say the Greens have to win a seat first, but how can they win a seat if they're being censored by the media? This kind of arbitrary exclusion represents a complete abandonment of the most basic principles of journalism and political bias.

Join us for a silent protest, outside the #FakeNews debate

Sunday May 27

5pm at CBC (205 Wellington West)
