

TIRE AMENSTY

What's it Worth?

Saving our Environment

- Since 1998, Nebraska has had a statewide landfill ban
- Burning tires releases toxic smoke like benzene
- Tires don't biodegrade easily
- All tires from this collection will be recycled by Champlin Recycling, making benches, picnic tables, silage covers, & feed bunks. champlintirerecycling.com

Saving Money vs. Retail Disposal Fee

- 1 car tire - \$6.00 Disposal Fee (average)
- 1 truck tires - \$20.00 Disposal Fee (average)
- 1 tractor tire - \$75.00 Disposal Fee (average)

700 Tons of Tires! How many tires is that?

- 35,000 car & pickup tires, or
- 14,000 truck tires, or
- 2,800 tractor tires

Thank You

North Central RC&D - Upper Elkhorn NRD
Nebraska DWEE - City of O'Neill

Donations

All donations go to North Central RC&D to support this event
and future recycling projects.
