Welcome to Our Product Catalog

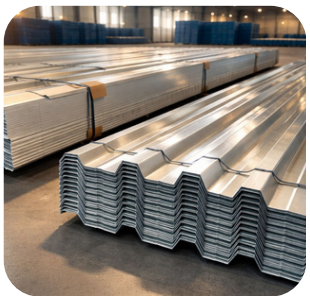

Welcome to the **Yugo Roofing** product catalog — your go-to guide for reliable, high-quality roofing and building materials. Every product featured here is manufactured and supplied with durability, performance, and real-world construction needs in mind. Whether you're tackling a small home project or a large-scale build, you'll find trusted solutions designed to deliver strength, consistency, and long-term value.

About Us

Yugo Roofing is a South African roofing manufacturer based in Sand Industrial, Athlone, Cape Town. We supply high-quality **Roof sheeting, Structural timber, Polycarbonate sheeting**, and complementary roofing materials engineered for durability and long-term performance. With a focus on reliability and consistency, we provide roofing solutions you can trust — *rain or shine.*

We specialise in **IBR** and **Corrugated** roof sheeting in thicknesses from **0.18mm to 0.53mm**, engineered to withstand harsh weather and deliver long-term performance. Our **SABS-approved Structural timber** is treated to resist insect and fungal damage, while our colour-matched **Polycarbonate sheeting** integrates seamlessly with our metal roofing profiles, providing durable light-transmitting solutions ideal for patios, carports, industrial structures, and architectural applications.
