## Materials

ALUMINUM

is the "state of the art" material for outdoor signs. IT WILL NEVER RUST. All highway departments across the country use aluminum for their road signs. Steel will rust and plastic will crack, warp, fade and break in just a few months.

## Workmanship

MADE IN THE USA

25 years in the same little town. Our products are guaranteed. You can count on quality and durability with every order. We all like our jobs and it shows in the finished products that we send to you.

## Service

PROMPT & FRIENDLY

Unless there is an unusual circumstance, all merchandise is kept in stock at all times. We pride ourselves in prompt, friendly and efficient attention to your order.
