

YOU'RE INVITED

Human Power in an AI World Expert Interview Invitation

Why You Are Receiving This

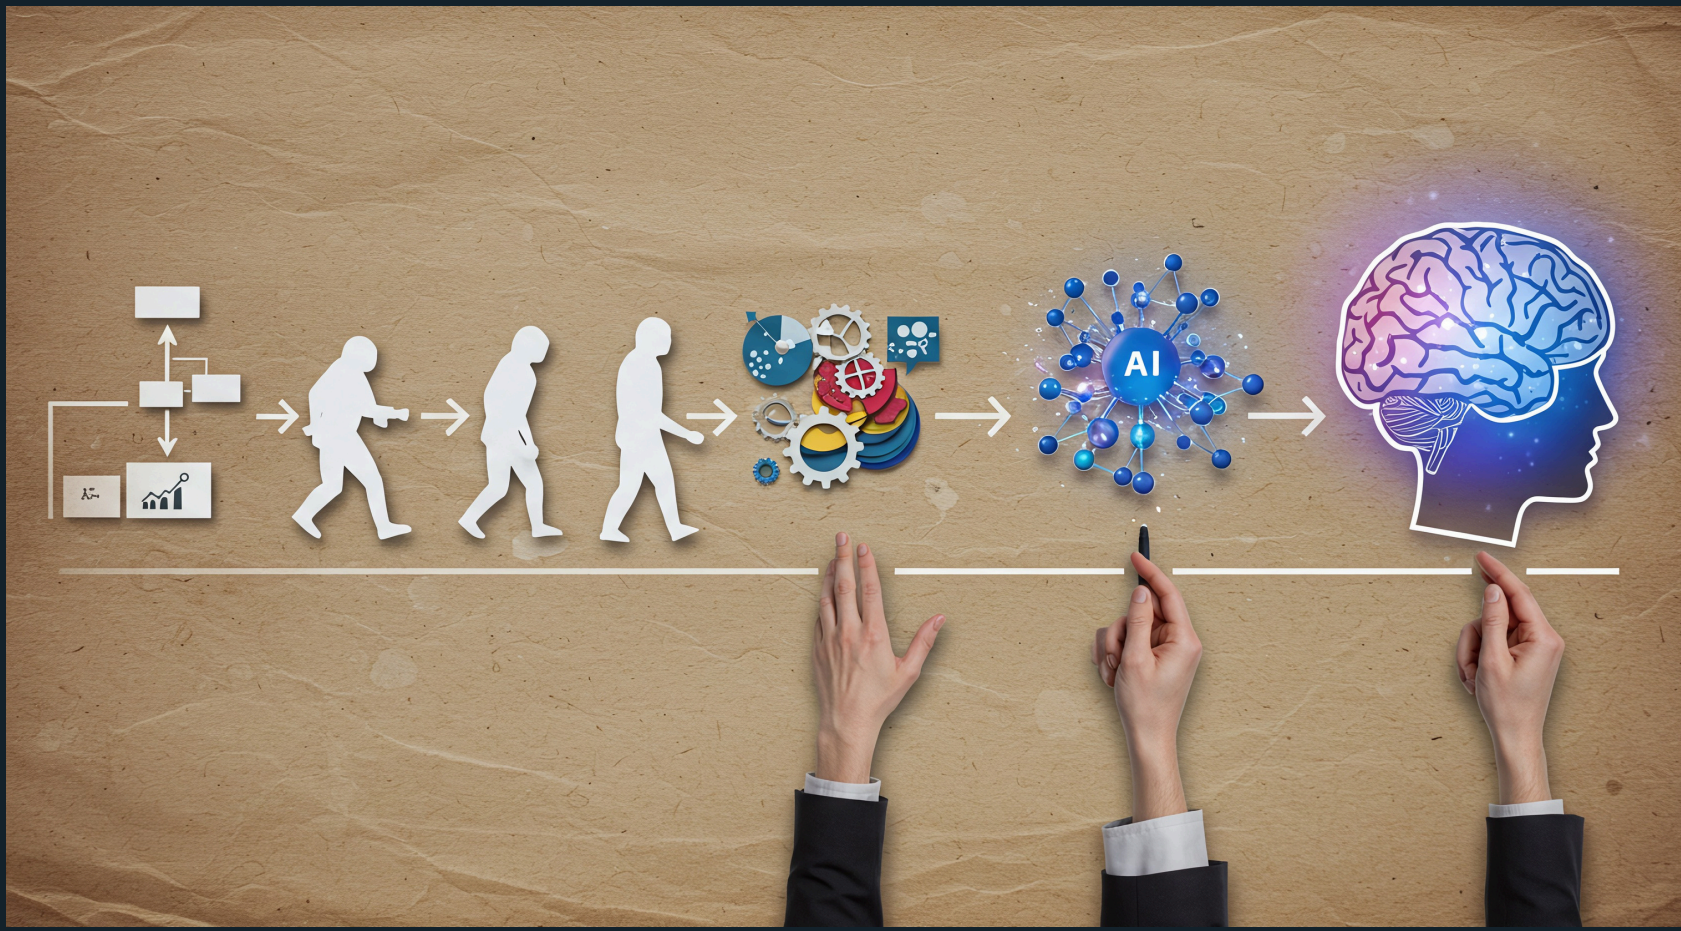

You've been identified as a leader whose perspective is shaping the future of human-centered leadership. We would be honored to feature your insights in an upcoming book that explores the timeless capabilities that remain uniquely human—creativity, emotional agility, intuition, compassion, conscious leadership, and adaptive thinking—even as AI accelerates.

About the Book

The Irreplaceables: Human Power in an AI World reveals the essential, enduring strengths that leaders, creators, and innovators must cultivate to thrive in an era of exponential technology. Backed by neuroscience and real-world executive stories, the book explores:

- The Soul of Innovation
- Creative Tension
- Emotional Agility
- The Empathy Engine
- Purpose as Compass
- Adaptive Thinking
- Storytelling as Strategy
- Designing a Human Future

Your interview will help illuminate one or more of these themes through lived experience and practical wisdom.

MAGNET LABS

The future belongs
to those who are
deeply human.

What Participation Involves

- A 30–45 minute Zoom conversation
- 5–7 guiding questions provided in advance
- Attribution and expert quotes woven throughout relevant chapters
- Optional: Highlighted frameworks, stories, or pull quotes

Benefits for You

- Positioning as a thought leader in a book designed to stand the test of time
- Exposure to a global audience of executives, creators, and lifelong learners
- Opportunities for cross-promotion through Insight Labs, Magnet Labs socials, and the Refirement Life podcast
- Early access to excerpts for your networks
- A lasting, published platform to share your philosophy and leadership approach

Next Steps

- If interested, reply with: “Yes, I’m in.”
- We’ll coordinate scheduling and share a brief outline for the conversation.
