COMPACK MEANS QUALITY

A large, stylized graphic of a roll of stretch film unrolling, set against a background of orange and white. The film is shown in a dynamic, curved perspective, with the top part being white and the bottom part being orange. The background is a gradient of light gray and white, with a large orange shape at the bottom right.

➤ **Compack : Your Trusted Partner in Packaging Solutions**

Experience Excellence in Packaging for Over 20 Years

With over 20 years of unwavering dedication to the packaging industry, Compack has refined its expertise to become a leading provider of premium packaging solutions.

Our Mission: Your Satisfaction, Quality, and Reliability

At Compack, we hold ourselves to the highest standards to ensure top-notch quality and reliability in every product and service we offer. We believe that quality is not just a word, it's our mission.

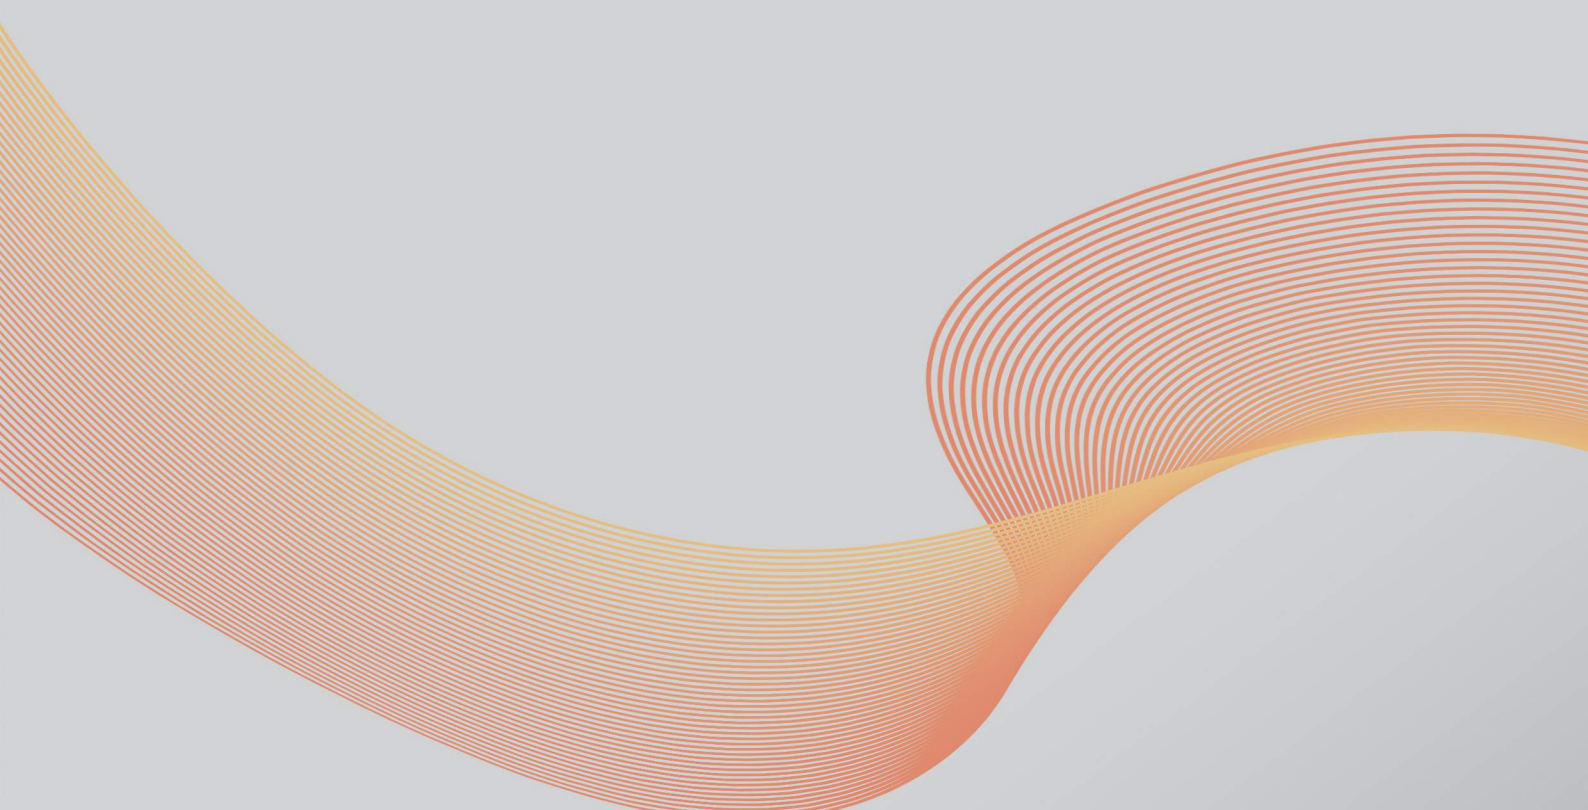

Comprehensive Range of Packaging Solutions

We offer a wide array of packaging solutions, including state-of-the-art machines and essential consumables like stretch film, PP and PET strap, and packaging accessories.

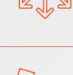

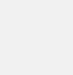

Serving Diverse Industries with Confidence

As your dedicated partner, we understand the unique packaging challenges faced by various sectors. Our industry-specific solutions provide optimal package security and protection.

> Stretch Film

Introducing **Compact** Stretch Films: Unmatched Quality and Protection

	Superior Quality:	Smooth, uniform, and optically clear film surface ensures excellent product presentation and protection.
	Rigorous Testing:	Protrusion puncture resistance, tensile properties, tear resistance, and more tested in certified labs for guaranteed quality.
	Secure Packaging:	With Compact stretch films, you can confidently achieve secure and reliable packaging.
	Eco Friendly:	100% recyclable, free of dust and toxic materials. Committed to quality control and continuous improvement.
	Higher Speed:	Technologically advanced for higher packaging speed.
	UV Resistance:	Resistant to UV light for added protection films are available.
	Material Composition:	Our stretch films are made from high-quality PE.
	Versatile Options:	We offer a range of options, including cast and blown stretch films.
	Customized Colours:	Colours can be customized according to your specific requirements.
	Extended core stretch films:	Extended core stretch films are available for hand-grade applications.
