Why choose a Goldendoodle?

Have you owned a Goldendoodle or another dog?

Goldendoodle have unique coats, they aren't fully hypoallergenic. They will shed less than that of a golden retriever, due to the combination of a retriever and a poodle, the coat will be less triggering to allergies. Also, the coat will need upkeep which involves regular grooming, cutting and brushing. The golden side brings in some shedding and longer hair, the poodle side brings less shedding and curly/wavy hair. This uniquely designed coat can vary and result in more golden or more poodle. You won't fully know till they reach around the age of 1 year. The coat is beautiful and in order to keep that unique beauty it needs to be cared for regularly. Will you educate yourself and be willing to take to the groomer or regularly keep up on your own by trimming and brushing?

Have you owned a puppy before?

What type of dog are you looking for? (ex. active, sporty, family, therapy)

Do you hope for energetic dog or a calm dog?

Who lives at home with you?

Who is responsible for caring for puppy?

Do you have other pets? If so, what kind? Will they get along with a new puppy?

Tell us any other important information about you or your family in regard to owning a puppy.
