

URGENT UPDATE – 15th APRIL 2026

The Council has written to the KVRA to say that the application will now **NOT** be coming to tomorrow's Council's Planning Committee.

The reason given by the Council for the application being withdrawn from the Planning Committee agenda is to “*allow an outstanding issue to be resolved.*” This relates to a query over the ownership of the site with the agent.

The KVRA's legal advisor wrote to the Council last week highlighting a number of concerns regarding the application – it is not known whether this identified the issue that now requires resolution.

The application is now likely to be considered by the Planning Sub-Committee scheduled for **Thursday the 21st of May 2026**. We will update residents and our website (www.kvra.co.uk) once more is known. If you are concerned about this application please pencil this date in your diary now and attend the Planning Committee meeting once the date has been confirmed.
