

The American experiment has failed. The Republic is dead. John Malan loves Liberty and hereby petitions the people of Washington 4 to serve as your representative to the United States Congress in order to safeguard *our* Life, Liberty and Pursuit of Happiness.

John Malan served America as a Recon Marine from 1980-1984 and possesses the leadership traits indicative of a United States Marine—Integrity, Knowledge, Courage, Decisiveness, Loyalty, Dependability, Initiative, Tact, Justice, Judgment, Enthusiasm, Bearing, Endurance and Unselfishness. He is a Journeyman Wireman affiliated with the International Brotherhood of Electrical Workers (a labor union) for over 35 years. He is not a politician but aspires to be a statesman.

The current corporate political system has hijacked America and transformed most of us into God-rejecting, Bible-hating, politically correct zombies. The Federal Corporation also known as the United States (28 USC 3002), continually usurp the People's Authority by disregarding the Bill of Rights including but not limited to Amendments 9 and 10. State Sovereignty must be re-claimed and respected.

John Malan believes in the nation state called the United States of America and rejects Globalism as a flawed economic model. A nation without substantive borders is not a nation at all. America is better served by fair trade not free trade. Treaties and agreements must be administered with full disclosure and acceptance by the American people.

Political Correctness cloaked in DEI and wokism is an abomination and has caused America to devolve further toward Communism. Agents for change have exercised a flawed submissive foreign policy and have emasculated our military forces to the point where we are vulnerable to attack. It's time to Make America Great Again.
