

# BMS GPS Tracker

Model: LCE25(2G+4G EA) / LCE25(4G+2G Global)

A battery management system (BMS) is an electronic system that monitors a rechargeable battery with various items including voltage, temperature, current, etc. A healthy BMS battery comes with longer durance mileage and more life cycles for an E-bike. LCE25 BMS GPS tracker keeps collecting this BMS data to platform, to analyze its health status, also sharing its accurate GPS location, anti-theft all the time.

## APPLICATION SCENARIOS

All  
9-100V  
rechargeable  
BMS supported  
batteries

## MAIN FEATURES
