HEALTH AND SAFETY PLAN

We are committed to providing you with a safe environment during your stay.

Coco's Beachfront Cabanas has developed a Gold Standard Policy to ensure compliance with the requirements of the Belize Tourism Board, Ministry of Health and other governmental agencies related to the COVID-19 Pandemic. Our team will actively monitor the enhanced cleaning and safety standards as we focus on the health and safety of our guests and staff members.

Temperature Checks

Our staff will take the temperature (using a thermal scanner) of all guests upon arrival. We are required to document this information and make available upon request of regulatory agencies. We will also check the temperature of all employees prior to the start of their shift in addition to a second check during their shift. These temperatures will also be documented and available upon request by regulatory agencies. A formal Response Plan has been developed for suspected and confirmed cases of COVID-19. This plan is available for guests to review electronically.

Common Areas

High touch areas such as door knobs will be cleaned after each use. Our staff will follow our enhanced cleaning procedures for all public areas.

Sanitization

Hand sanitizer is available prior to entering our Office. We have also provided hand sanitizer inside your cabana. We encourage you to disinfect your hands prior to entrance to your cabana.

Social Distancing

The Government of Belize recommends a minimum of six feet distancing when in a public space. Guests will find signage as a reminder of social distancing on our property. Guests are expected to follow local regulations which currently include wearing a mask in public spaces for all adults and children over the age of six. As these guidelines change, we will implement the changes accordingly.

Cabanas

We have elevated our cleaning and sanitization procedures. All rooms will be cleaned and disinfected with recommended products. Housekeeping services will only be upon request. To reduce contact, housekeeping is only available when the cabana is vacant.

Communication

Guests will have access to electronic copies of all sanitization and safety procedures. Guests will be provided a local cell phone to communicate with the staff of Coco's Beachfront Cabanas during their stay. We encourage limited physical communication to ensure the health and safety of our guests and staff.

Questions related to this Health and Safety Plan may be sent to Steve Aderhold, Program Manager, steve@cocosbeachfront.com.
