

Job Summary

We are seeking skilled B Pressure/Journeyman Welders to join our dynamic team. The ideal candidates will possess a strong background in various welding techniques (SMAW, GMAW, SAW), and have the ability to read and interpret blueprints and schematics. This role requires proficiency in complete structural welding (tanks, skids, trailers), as well as experience with fabrication and assembly processes.

Duties

Perform welding on various materials, ensuring high-quality welds that meet specifications.

- MUST have Pipe Experience
- Read and interpret blueprints, schematics, and technical drawings to understand project requirements.
- Utilize hand tools, power tools, and welding equipment to complete tasks efficiently.
- Maintain a clean and organized work area while adhering to safety protocols.
- Collaborate with team members on assembly tasks and ensure timely completion of projects.
- Inspect finished products for quality assurance, making adjustments as necessary.

Experience

- Proven experience in welding within a manufacturing environment is essential.
- Familiarity with mechanical knowledge and basic math skills for precise measurements is required.
- Strong attention to detail and commitment to producing high-quality work are essential traits for success in this role.
- Join us in creating exceptional products while advancing your career in a supportive environment!
