

Rugged Protection Dell 5190, 3100 Case install

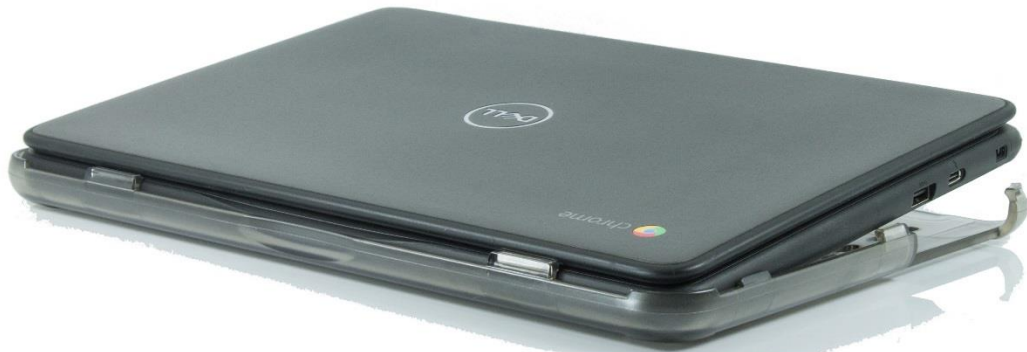

Screen Side:

Insure the two larger catches(1) and the corner crush protector(1) is placed on the top camera side of the screen. Place the top part of the case on the computer first and press the remaining part of the case on.

Keyboard Base Side:

Place the front mouse pad edge of the computer into the case then press the remaining part of the case on.

Removal of the case:

Reverse these steps without forcing the case off. Start with hinge side of the computer and press on the catches to release the computer. Please contact Support@ruggedprotection.com if you have any questions or call us at 605-622-0884
