www.RuggedProtection.com

**Asset Tag:** Our cases feature two windows on the back of the case where an asset tag can be placed on the iPad, and is visible through the case. The windows have a matte finish on the plastic. In our experience, our customers do not have an issue with this. The scanner can read the bar code without issues.

**Colors:** Many of our customers request colors to identify different grade levels, classrooms, models, etc. We can make any color with a minimum order of 300 cases per color. If you don't need this many, we have made stickers that adhere to the back of the iPad and are visible through the clear window in the case. We provide these stickers free of charge and have many colors available.

**Front Cover:** As technology departments expand and iPads are in the hands of more students, districts are choosing to send iPads home in the student's backpack. Our front cover clips onto the front of the iPad to protect the screen during transport. The cover also can clip onto the back of the iPad for convenient storage. All ports and buttons remain accessible. This is an add-on option at a reasonable cost.

**Kickstands:** We provide free replacement kickstands for the lifetime of our cases- no questions asked. Rugged Protection customers love this. Kids can be rough on cases, no matter how strong the kickstand is, they can still break it. With many other manufacturers the kickstands are not replaceable. The kickstand on our iPad cases is easily repaired in minutes.

**Replacement Parts:** Our iPad cases use a built in screen protector that is glued to the front frame of our case. Over time the screen protector can become scratched and worn. We offer replacements at a low cost. Also, any other part of the case is available. We want our cases to provide years of service, and when only one part of it is worn or broken, it would be wasteful and costly to replace the entire case.

We hope you will consider us when purchasing iPad cases. We do our best to accommodate every customer and provide a product that fills their needs.
