

Rugged Protection HP G6 EE Case install

Screen Side:

Insure the four larger catches(1) are positioned on the top camera side of the screen. Place the top part of the case on the computer as shown. Press the remaining part of the case on.

Keyboard Base Side:

Place the front mouse pad edge of the computer into the case then press the remaining part of the case on.

Removal of the case:

Reverse these steps without forcing the case off. Start with hinge edge of the computer and press/flex the catches to release the computer. Please contact Support@ruggedprotection.com if you have any questions or call us at 605-622-0884
