

"I would like to express my sincere gratitude for the time your team dedicated to myself, and my son. It was enlightening to understand some of the issues he has struggled with, and I am pleased to note how comfortably he opened up to you. Thank you all for your support and helping us both to understand Autism in more depth."

D.Short

"From the beginning to the end the team at CNS were incredibly helpful. From the quick timescales and to receiving the completed report . Thank you for helping me understand how to manage my Autism."

R.Franklin

"The CNS team made sure my daughter was comfortable throughout her observational ADHD assessment showing care towards their clients .

We could not fault them in anyway and are grateful for all the help and support given"

K.Swift

"Easy process and quick communication in order to get my young child assessed for both Autism and ADHD. Very helpful with explaining what would be involved in the assessments putting my mind at ease"

O.Goodie
