* CVCA does not take a position on childhood vaccinations. We encourage parents to research and prayerfully make a decision for their children. As of January 1, 2016, there are no religious or personal exemptions for public or private schools. Since CVCA is a home-base private school, the recent law, does not apply to CVCA, but on advice from HSLDA, a signed and dated letter from the parent stating that you have chosen not to vaccinate should be in the student's accumulative file.
