

Parenting is hard work; Need a hand?

The vision of our mentor program is to support families parenting kids from hard places by:

Providing respite for caregivers

- Helping with academic needs (tutoring, homework help)

- -Teaching children and youth life skills
- Providing transportation when needed
- Being a part of the family team and coordinating with community partners

We can spend a few hours per week either on the same day or different days providing the services above.

ALL MENTORS ARE TBRI TRAINED

If you want to discuss this further, I would love to chat. You can contact me at:
