

FIRE DEPARTMENT BREATHING APPARATUS

3 YEAR PRICE GUARANTEE

Limited Time Offer to Save Money

We understand that supplying your fire departments with quality breathing protection is essential, but it does not need to be as expensive as you might expect. The Dräger SCBA (Self Contained Breathing Apparatus) is certified to the latest NFPA standard, offers the greatest level of comfort, the best warranty in the industry, and is the easiest to use. If you act now, you can get all new equipment for your fire department(s), and split the payments over the next 3 budget years. Since your firefighters will be using the same breathing equipment, training will be easier, stress will be reduced in emergencies and they will be happier.

FREE — Presentation and trial at your location. If you have not tried the 2018 Edition SCBA from Dräger, you haven't tried Dräger. Your firefighters deserve to know their options, especially when it will save you money.

COMPLIANCE with HEALTH and SAFETY — SCBA only have a 15 year life span and purchasing a few every year does not always work because some can have different features and functions. Keeping your fire department compliant with breathing regulations is an absolute must.

SAVINGS — Lock in current pricing for the next 3 years. Covid is causing price increases everywhere, so act now and protect your budget, firefighters and rate payers.

GUARANTEE— 15 Year Warranty. Bumper to bumper. No fine print like the other guys.

EASY—Firefighters need comfortable breathing protection that is easy to use. That will ensure you have done everything you can to provide them with the best safety equipment and increase the likelihood they will use it. You need equipment that won't blow the budget. The decision is easy.

COMPATIBLE—Dräger SCBAs will accept any other manufacturer's air bottle and if you choose our most popular quick connect bottles, in a mutual aid or training situation, you can simply twist on a fitting to anyone else's bottle.

VISIBILITY and CUSTOMIZATION— Dräger offers the most optically correct vision, different backplates, and a variety of options to match your departments needs. From voice amplifiers to masks with built in two-way radios (Team Talk), we have the right options for you.
