FIRE SERVICE CATALOG

Based on research, we have come up with a line of *Zero Resistance* PPE that means it is the most comfortable, ergonomically correct and innovative PPE to make life easier and safer for firefighters. From turnout gear that has eliminated throat straps, to SCBAs that adjust and expand when you move, to face masks that have built in communications so that you can talk normally even when you are on air and even decontamination cleaning to help mitigate your risk of cancer. These products have been specifically designed with the latest technology available to reduce the chance of injury or death, including heat exhaustion. We also offer the best selection of lighting equipment from cost effective to premium grade-NFPA certified.

Visit us online at www.PROupfitters.com , call us locally at 204.414.1576 or on:

V1.2

7 Series PREMIER SCBA

The most feature packed and high performing SCBA available.

ZERO RESISTANCE CERTIFIED

Photo luminescent covers for easy visibility in low light

One size fits all - 3 step adjustable height backplate

Rigid, self supporting hip belt handles the weight of the SCBA - Exclusive to Drager

Non-porous, rubber coated shoulder and hip harness for grip & easy cleaning

Torso contoured shoulder harness for maximum comfort

Digital gauge that shows how many minutes to low air

EBSS pouch available

Fully articulating hip belt that features a positive engagement to backplate that also extends to eliminate pulling on shoulders when moving

- *Lifetime Warranty*

On Rear of Pack

1. Dual directional sounders and lights when PASS activated

2. 60 second disassembly for decon

3. Ten second bottle changes

SCBA

Dräger **PSS5000** - Standard backplate with fully articulating hip belt - Digital Sentinel 7000 guage that *displays actual minutes until low air alarm sounds* and has built in PASS alarm - 45/4500psi bottle with quick connect - 1 minute disassembly for decon/cleaning - Lifetime warranty	
PSS7000 - On previous page	
Face mask - **FPS7000** - Most optically correct vision in industry - HUD mounts inside mask - Optional clip to eliminate neck strap and holds mask upright - COMs units can be added to mask anytime - Sizes are S, M, L with 3 sizes of nose cones to eliminate lens fogging in winter	
FPS Heads Up Display - Mounts in mask, cycles on/off every 30 seconds to conserve battery life and remind firefighters	
Cylinder Quick Connector - Can be installed on any air bottle and can be installed in seconds for mutual aid situations	
Air Bottles - 4500psi / 45min	
Air Bottles - 4500 psi / 60 min	

Pro Upfitters Quick Reference Catalog - 2020
