WELCOME

Welcome to Seven Seas Commodity Academy, where we teach motivated individuals how to become professional commodity brokers and traders, even with zero prior experience.

The global commodity markets move trillions of dollars every year. Behind these deals are brokers who earn six-figure commissions — without owning a single barrel of oil or taking on massive risk.

This academy gives you the exact framework used by professional brokers worldwide to identify opportunities, negotiate transactions, and close deals.

Your journey starts here. With discipline, dedication, and the strategies we provide, you can replicate the success of young traders who have facilitated multi-million-dollar deals before the age of 35.

ABOUT THE ACADEMY

Our Mission

To empower everyday people to become successful commodity brokers, generating wealth and building careers in one of the most lucrative industries on the planet.

Our Vision

To provide practical, actionable training that takes students from complete beginners to confident professionals capable of facilitating high-value trades in global markets.

Why Our Approach Works

- Step-by-step, structured process
- Real-life case studies of young brokers earning nine-figure commissions
- Focus on practical deal-making, not theory
- Guidance from professionals operating behind the scenes in commodities

COURSE STRUCTURE - THE FOUNDATIONS

LEVEL 01

UNDERSTANDING THE COMMODITY TRADING INDUSTRY

What This Market Really Is

- What commodity trading actually means in practice
- Why global trade exists and how value is created
- The difference between physical trade and speculation
- Who participates in the market and why

Outcome:

Students gain a clear, confident understanding of the commodity trading industry.

02

COMMODITIES & HOW TRADE OPPORTUNITIES WORK

What Is Traded and Why

- Overview of major commodity categories
- How trade opportunities are identified
- What makes a commodity suitable for beginners
- How supply, demand, and pricing interact

Outcome:

Students understand what is traded and how real opportunities are formed.

03

TRADE ROLES & MOVEMENT OF GOODS

From Origin to Destination

- How goods move through global trade routes
- Key responsibilities within a transaction
- Why location and timing matter
- Understanding responsibility without complexity

Outcome:

Students understand how commodities move and where responsibility shifts.

04

TRADE STRUCTURE & DOCUMENTATION CONCEPTS

Why Structure Matters

- Why formal structure exists in trading
- The role of written confirmations and records
- How structure protects all parties
- Where documentation fits in the trade process

Outcome:

Students understand the purpose of trade structure without technical exposure.

COURSE STRUCTURE

05

PROFESSIONAL TRADE COMMUNICATION

How Real Traders Communicate

- How professionals communicate in global trade
- What information builds credibility
- What information should be controlled
- Avoiding common communication mistakes

Outcome:

Students can communicate confidently and professionally in trade settings.

07

DELIVERY, LOGISTICS & RESPONSIBILITY

How Goods Are Delivered

- How delivery responsibilities are defined
- The relationship between logistics and pricing
- Key delivery methods and considerations
- Risk awareness during transport

Outcome:

Students understand delivery dynamics and cost implications.

06

BUILDING TRADE FRAMEWORKS

From Understanding to Execution

- How trade frameworks are formed
- The sequence of agreements and confirmations
- How errors can affect a transaction
- Best practices used by professionals

Outcome:

Students understand how trades are structured from start to finish.

08

PAYMENT FLOW & RISK AWARENESS

How Value Is Exchanged

- How payment typically flows in trade
- Timing of payment within a transaction
- Risk awareness for buyers and sellers
- High-level protection concepts

Outcome:

Students understand how payments work without banking complexity.

COURSE STRUCTURE

09

MANAGING A TRADE FROM START TO FINISH

The Trader's Role

- The full lifecycle of a trade
- Decision points that matter most
- Common mistakes that cause deals to fail
- Professional standards and accountability

Outcome:

Students can manage a trade process with clarity and confidence.

10

BECOMING A PROFESSIONAL COMMODITY TRADER

Positioning Yourself Correctly

- Transitioning from learning to execution
- Professional positioning and credibility
- Market entry considerations
- Long-term mindset for success

Outcome:

Students are prepared to enter the commodity trading space professionally.

OVERALL COURSE OUTCOME

Upon completion, students will:

- Understand how real commodity trading works
- Think and communicate like professional traders
- Navigate trade processes with confidence
- Avoid common beginner mistakes
- Be positioned to pursue real opportunities responsibly

LEARNING OUTCOMES

By the end of this course, students will be able to:

TRADE COMMODITIES

- Identify high-value commodity trading opportunities worldwide
- Generate and qualify leads for multi-million-dollar deals
- Confidently negotiate and close transactions

GENERATE INCOME

- Scale operations to manage multiple deals simultaneously
- Replicate professional broker systems for long-term growth
- Be fully able to transact and complete a commodity deal

GENERATE INCOME

SUCCESS STORIES

CHRISTOPHER
EPPINGER

Oil Trader Who Earned
\$ 380 Million USD by Age 31
through market insight and deep
understanding of oil trade

JOHN D. ARNOLD

By his mid-20s was responsible for
trading a significant portion of the
U.S. natural gas market. In 2007,
he became Americas youngest
billionaire. Today worth 2.9 Billion
USD

POST-COMPLETION PATHWAYS

Upon successful completion of the Commodity Trading Academy Programme, graduates may be eligible for one of the following professional pathways, subject to readiness and internal assessment:

OPTION 1 - INDEPENDENT TRADING SETUP SUPPORT

Graduates may choose to establish and operate their own commodity trading or brokerage company.

Under this option, we can provide:

- Guidance on company formation and structuring
- Assistance with compliance and professional documentation setup
- Support in preparing trade documents (LOIs, FCOs, SPAs, invoices)
- Advisory support during initial trades and deal structuring

This pathway is designed for graduates who wish to build and operate their own independent trading business with professional guidance during the early stages.

OPTION 2 - TRADING UNDER SEVEN SEAS TRADE HOUSE

For selected graduates who demonstrate strong understanding, professionalism, and operational readiness, there may be an opportunity to operate under the Seven Seas Trade House structure.

Under this option:

- Trades are conducted under the Seven Seas Trade House framework
- Graduates operate as approved traders or brokers
- Access may be provided to existing trade infrastructure, documentation standards, and professional workflows
- All activities are subject to internal approval, compliance standards, and operational oversight

This pathway is reserved for graduates who meet strict professional and competency criteria and is offered at the discretion of Seven Seas Trade House.
