About Us

Under the Dan-D umbrella, Dan-D-Pak Fresno is our high yield production facility. We are located in the heart of world agriculture: San Joaquin Valley, California. This area is the capital for almonds, raisins, pistachios, walnuts, peaches, pears, and prunes. Due to this fact, Dan-D-Pak has strategically chosen this location to produce value added products and packages in our SQF certified plant. We are also DV certified by the Almond Board of California.

We have invested in 3 continuous oil roasters with each being able to produce up to 10,000 lbs of nuts every 8 hours. Our dry roaster can produce up to 8,000 lbs of honey roasted peanuts in one shift. We are also equipped with three fully automatic, high speed packaging machines that enable us to pack 3,000 cases of 24 / 8 oz nuts per day. Our signature products include: honey roasted peanuts, honey nut mix, blueberry apple granola, and toasted muesli, to name a few.

Dan-D-Pak Fresno is versatile, innovative, modern, and is our fastest growing division. We look forward to serving the food industry with the best of our capabilities.

Work Requested
RECALIBRATE CHARGE RECORDERS
CONTACT PERSON: VIX-233-8926

Equipment Name: CHART RECORDER ROASTER 2 **Model:** DN64T
Manufacturer: Honeywell Control **Serial Number:** C400000004333

Work Requested
RECALIBRATE CHARGE RECORDERS
CONTACT PERSON: VIX-233-8926

Work Performed
Jan 29, 2019
1. arrived at site and gained access to chart recorder.
2. calibrated chart recorder using temp. loop calibrator.
3. verified thermocouple probe by using temp gun and verifying temp of oil.
customer could not drain oil making ice bath calibrating impossible.
4. chart controller and thermocouple are within 5 degree of one another.
5. recommend replacing probe with dual output thermocouple.
6. no further work is required at this time.
