

# Bentonville Certified Cerakote LLC

6404 SW Meadow Well Ave. Bentonville, AR 72713

**479-370-3555 BentonvilleCerakote@gmail.com**

## Cerakote Price List (before taxes)

We are (in the process of becoming) a FFL Type 01 Licensed Dealer (as required by Federal Law)

2/3 down-payment required, balance before or at delivery. No payment = No delivery.

text or FB Messenger for a quote.

Some firearms will require extra time and will be billed at an hourly rate for gunsmithing.

Prices are for completely stripped firearms. Add for disassembly/reassembly.

No work will be done without a purchase agreement.

When mailing or dropping of a firearm,

**PLEASE clean the firearm first of any dirt, grit, grease, etc. prior to giving it to us.**

Dirty firearms destroy the acetone bath in the degreasing tank rendering it useless.

If your firearm is dirty, we will automatically charge an **acetone replacement fee of \$100.00**

We are not trying to be dicks,

but we can't be swapping gallons and gallons of acetone with every project we do.

Add for pencil thin Cerakote in engravings, stamps, etc.					\$49.00
<b>MARKINGS</b> :For receivers, frames, slides, Picatinny rails which have painted on or lightly laser etched					
markings these markings will be lost during the surface preparation and coating unless they					
are machine engraved or stamped. If these markings are of great importance we can mask					
over them, but (if masked) those areas in and immediately around the markings will not be coated and,					
as such, will not blend. Manufacturer's serial numbers will be masked at no additional charge					
where needed or coated where possible. Some manufacturer model numbers, name etc					
which are laser engraved will be masked over. This is per BATFE (ATF) regulations.					
Please consult us for specific requirements.
