Features

- ⊙ 316 stainless steel is standard material. Other materials are available upon request.
- ⊙ Straight fittings are manufactured from quality bar stock. Shaped fittings are made from forgings.
- ⊙ Quality machining of all ports ensures consistent welding.
- ⊙ Radius junction design with elbows provides smooth flow path.
- ⊙ All fittings are cleaned to remove oil, grease and loose particles.
- ⊙ Every fitting is stamped with size, material and heat code.

Technical Data

- ⊙ Sizes range from 1/8" to 1" and 6 mm to 38 mm.
- ⊙ Working Temperatures:

Material	Minimum Temperature	Maximum Temperature
316 SS	-325°F (-198°C)	1000°F (538°C)
316L SS	-325°F (-198°C)	850°F (454°C)

- ⊙ Working Pressure:

1. Catalog working pressures shown are based on ANSI/ASME B31.3 at ambient temperature, to determine working pressures in accordance with ANSI/ASME B31.1 multiply catalog working pressures shown by 0.94.
2. Use the allowable working pressure at ambient temperature to multiply the elevated temperature factors to get the working pressure at elevated temperature. To know the elevated temperature factor, please refer to the related information of VFK 6 Series Tube Fittings.

Materials

Material	Bar Stock	Forging	Designator
316 SS	ASTM A276, ASME SA479	ASTM A182, ASME SA182	SS
316L SS			6L

Ordering Information

- ⊙ Add the material designator as a prefix to the basic ordering number to get the complete ordering number.

Example:

1. Male connector with 1/4" fractional tube butt weld, 1/4 NPT thread and 316 stainless steel material, the complete ordering number is SS21-TB4N4.
 2. Male elbow with 1/4" fractional tube socket weld, 1/4 NPT thread and 316L stainless steel material, the complete ordering number is 6L22-TS4N4.
- ⊙ To order fittings with special cleaning and packaging, following ASTM G93 C standard, add -V2 as a suffix to the ordering number. Example: SS21-TB4N4-V2.

- ⊙ Using the same materials to weld will ensure the same coefficients of expansion and good welding.
- ⊙ Tungsten Inert Gas Welding (TIG) is recommended.

Factory-made Wrought Buttwelding Fittings

F Series

1. Comply with ASME B16.9.
2. Sizes range from NPS 1/2 to NPS 2.
3. 316L stainless steel material is standard, other materials are available upon request.
4. Wall thickness listed is Sch10S, other wall thickness are available upon request.

Ordering Information - F Series

- ⦿ Add the material designator (6L, SS or S4 etc.) as a prefix, wall thickness designator (-5S, -40S, or -80S etc.) as a suffix to the basic ordering number to get the complete ordering number. Example: SS214-PB12-40S.
- ⦿ When the wall thickness is Sch 10S, no suffix is required.
- ⦿ To order fittings with special cleaning and packaging (VK-02), following ASTM G93 C standard, add -J2 as a suffix to the ordering number. Example: SS234-PB32-40S-J2.
