

## Vintage Falls Farm & Forage

Name of Business

The following products bear the **Good Faith Grown™** label:

Produce and Eggs

**We are 100% natural** (no man-made or synthetic additives in our product or process)

**We use the following products and/or applications:**

Our non-GMO seed and produce are never sprayed with chemical pesticides. We work with natural practices like companion planting & good bugs so that our plants do not need applications other than sun, compost and water from our property (not a city facility). On the occasion our own vigilant eyes and hands on approach and that of our lady bugs or praying mantis can't keep up, we will resort to things like: natural peppermint soap, neem oil, and such.

Our heritage breed chickens and turkeys are raised to live & forage freely like a bird was intended to do. They are given vitamin supplements and probiotics on occasion. On the very rare occasion that a chicken has a real reason for an antibiotic, their egg will not be used. They are pasture raised and fed supplemented with non-GMO, organic feed. Our eggs are gathered daily and our hens & roos are loved and locked safely while roosting at night.
